

1 **SHB 1441 - H AMDS 000171 ADOPTED 03-17-93**

2 By Representatives R. Johnson and Rust

3 On page 2, line 20, after "through" strike "alternative" and  
4 insert "non-structural"

5 On page 2, after line 24, insert "(b) describe structural  
6 methods for residential, commercial, and industrial buildings to  
7 meet the objectives of subsection (1) of this section, including  
8 but not limited to post and pier construction, flow-through  
9 foundations, and similar construction practices;"

Re-number remaining subsections consecutively and correct  
internal references accordingly.

EFFECT: Clarifies that the Department of Ecology's model  
flood plain ordinance must include structural and non-  
structural methods for meeting the policy objectives of the  
ordinance.
