1 AN ACT Relating to alternative livestock; amending RCW 77.08.010,
2 77.32.010, 77.12.570, 77.12.580, 77.12.590, 77.12.600, 16.57.010,
3 77.12.020, 16.36.005, 16.36.010, 16.36.020, 16.36.050, 16.36.040,

5 section to chapter 77.04 RCW; adding a new section to Title 16 RCW;
6 adding a new section to chapter 16.49A RCW; adding a new chapter to
7 Title 15 RCW; and prescribing penalties.

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

9 NEW SECTION. **Sec. 1.** The legislature declares that the husbandry
10 of alternative livestock as a farming operation provides a consistent
11 source of healthful food, offers opportunities for new jobs and
12 increased farm income stability, and improves the balance of trade.

13 The legislature finds that many areas of the state of Washington
14 are suitable for alternative livestock farms, and therefore the
15 legislature encourages the promotion of alternative livestock farming
16 activities, programs, and development with the same status as other
17 agricultural activities, programs, and development within the state.

18 The legislature finds that alternative livestock farming should be
19 considered a branch of the agricultural industry of the state for

1 purposes of any laws that apply to or provide for the advancement,
2 benefit, or protection of the agriculture industry within the state.

3 It is therefore the policy of this state to encourage the
4 development and expansion of alternative livestock farming within the
5 state. It is also the policy of this state to protect wildlife and
6 existing traditional livestock industries by providing an effective
7 disease inspection and control program for alternative livestock
8 farming operations.

9 NEW SECTION. **Sec. 2.** Unless the context clearly requires
10 otherwise, the definitions in this section apply throughout this
11 chapter.

12 (1) "Alternative livestock" means those nontraditional vertebrate
13 livestock, that include ungulates and ratites, and those species of
14 fowl that are reared for its meat or other products, so long as they
15 are: Confined by humans; raised or used in farm or ranch operations in
16 the private sector; and produced on the farm or ranch or legally
17 acquired for the farm or ranch. "Alternative livestock" shall not
18 include: Native wildlife species that currently exist in a wild state
19 in the state of Washington unless such specie is now raised on an
20 alternative livestock farm or ranch in the state of Washington; a
21 domestic dog (*canis familiaris*) or domestic cat (*felis domestica*);
22 private sector aquatic products as defined in and regulated under
23 chapter 15.85 RCW; an animal raised for release into the wild; an
24 animal raised for the purpose of hunting that takes place in this
25 state; an animal that is required to be identified under section 5 of
26 this act and is not identified as required; or an animal located on,
27 purchased from, or being transported to or from a farm or ranch that is
28 required to be registered under section 6 of this act but that is not
29 registered as required at the time the livestock is located on,
30 purchased from, or being transported to or from the farm or ranch.

31 (2) "Alternative livestock products" means the products of
32 alternative livestock including, but not limited to, meat and meat
33 products, velvet, antlers, horns, leather, hides, feathers, eggs,

36 5 of this act and is not identified as required.

37 (3) "Department" means the department of agriculture.

1 NEW SECTION. **Sec. 3.** The department is the principal state agency
2 for providing state marketing support services for the alternative
3 livestock industry. The department shall exercise its authorities,

5 RCW, to develop a program for assisting the alternative livestock
6 industry to market and promote the use of its products. The department
7 shall consult the alternative livestock council in developing the
8 program.

9 NEW SECTION. **Sec. 4.** (1) Any authority of the department of
10 wildlife to regulate alternative livestock is limited to the authority
11 granted by this act.

12 (2) The department of agriculture and the department of wildlife
13 shall study the needs for assuring adequate fences or other methods of
14 enclosure for various species of alternative livestock. The directors
15 shall jointly adopt rules establishing fencing standards as deemed
16 necessary to assure adequate protection to traditional farm animals,
17 wildlife, and alternative livestock that would result from the possible
18 escape of alternative livestock.

19 (3) The director of agriculture shall develop and administer a
20 program of disease inspection and control for alternative livestock.
21 The purpose of the program is to protect the alternative livestock
22 industry from the loss of animals or productivity to disease, to
23 protect the traditional livestock industry, and to protect wildlife in
24 this state. As used in this section "disease" means, in addition to
25 its ordinary meaning, infestations of parasites or pests.

26 (4) The department of agriculture, in consultation with the
27 department of wildlife, representatives of traditional livestock,
28 representatives of alternative livestock and other interests, shall
29 review existing animal health laws and rules governing alternative
30 livestock as the laws and rules pertain to the prevention of
31 introduction or spread of a disease or parasite harmful to humans or
32 other animals including livestock, poultry, wildlife, or alternative
33 livestock. The department of agriculture shall adopt new rules or
34 amend existing rules to assure a proper disease prevention and control
35 program is established.

36 (5) Rules adopted under this section are subject to provisions of
37 the regulatory fairness act, chapter 19.85 RCW, and the administrative
38 procedure act, chapter 34.05 RCW.

1 NEW SECTION. **Sec. 5.** The director of agriculture shall, in
2 consultation with the alternative livestock council, establish
3 identification requirements for alternative livestock and alternative
4 livestock products to the extent that identifying the livestock or the
5 source or quantity of the products is necessary to permit the
6 department of wildlife to effectively administer and enforce Title 77
7 RCW. The director shall also consult with the director of the
8 department of wildlife to ensure that such rules enable the department
9 of wildlife to enforce the programs administered under that title.

10 NEW SECTION. **Sec. 6.** All persons engaged in the farming or
11 ranching of alternative livestock shall register annually with the
12 department of agriculture. The director shall develop and maintain a
13 registration list of all alternative livestock farms and ranches.
14 Registered alternative livestock farms and ranches shall provide the
15 department production statistical data.

16 The director of agriculture shall, upon advice from the alternative
17 livestock council, establish by rule annual registration fees
18 sufficient to cover the costs of development of rules and the
19 administration of this chapter and rules adopted under this chapter.

20 NEW SECTION. **Sec. 7.** The department of agriculture shall adopt
21 rules for administering this chapter. Rules shall be adopted in
22 accordance with chapter 34.05 RCW.

23 In developing and adopting rules under section 4 of this act, the
24 department of agriculture shall consult the alternative livestock
25 council, the department of wildlife, appropriate federal agencies, and
26 Indian tribes to assure the protection of state, federal, and tribal
27 wildlife resources and to protect alternative livestock from disease
28 that could originate from resources regulated or managed by public
29 entities.

30 NEW SECTION. **Sec. 8.** The alternative livestock council is

33 designee, shall serve as chair, and the director of wildlife or his or
34 her designee, shall serve as a permanent member on the council. The
35 council shall be composed of representatives of alternative livestock
36 farming and marketing operations in the state. The members of the

1 council shall be appointed by the director of agriculture to three-year
2 terms. The director may shorten the initial term for a position on the
3 council to stagger the expiration of terms on the council. Vacancies
4 on the council shall be filled by the director by appointment. The
5 council shall advise the department on all aspects of alternative
6 livestock farming and the marketing of alternative livestock and
7 alternative livestock products.

8 NEW SECTION. **Sec. 9.** It is unlawful to hunt or allow others to
9 hunt for a fee, ungulates and ratites reared on or derived from an
10 alternative livestock farm.

14 livestock products, as defined in section 2 of this act or in rules
15 adopted under section 7 of this act. The sole authority of the
