As one of its many recommendations, the Task Force recommended providing grants or loans to assist low- and moderate-income homeowners who are delinquent on their mortgage payments, to bring their loan current to be eligible to refinance into a different loan product. Draft legislation creating the Smart Homeownership Choices program was submitted as part of the final task force report in December, 2007.

**Summary of Substitute Bill:** The Smart Ownership Choices program is created to assist low-and moderate-income households facing foreclosure.

The program is created within the Department of Financial Institutions, administered by the Washington State Housing Finance Commission (Commission).

The Commission will assist homeowners who are delinquent on their mortgage payments to bring their mortgage payments current in order to refinance into a different loan product. Homeowners must repay any funds received at the time of refinancing, and the homeowner must participate in a mortgage counseling program.

Funds may also be used for outreach activities to raise awareness of the program.

The smart homeownership choices program is created in the custody of the state treasurer. State appropriated funds may be used only to serve low-income households. Contributions from private and other sources may be used to serve both low-and moderate-income households.

Two-hundred-fifty-thousand dollars is appropriated from the general fund for deposit in this account.

The act is null and void clause if not funded in the state budget.

**Appropriation:** None.

**Fiscal Note:** Requested on January 25, 2008.

**Committee/Commission/Task Force Created:** No.

**Effective Date:** Ninety days after adjournment of session in which bill is passed.

**Staff Summary of Public Testimony on Original Bill (Consumer Protection & Housing):** PRO: This bill helps low and moderate income households facing foreclosure become current on their mortgage and refinance. This program works in cooperation with the Governor's financial literacy bill which provides counseling for victims of subprime lending. There are six to eight housing finance commissions nationwide using the model, spending \$5,000 to \$10,000 per household. This bill also allows for private contributions and where feasible, the Commission would seek repayment of funds.

**Persons Testifying (Consumer Protection & Housing):** PRO: Kim Herman, Washington State Housing Finance Commission.

**Staff Summary of Public Testimony (Ways & Means):** None.

**Persons Testifying (Ways & Means):** No one.
