26 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

27 NEW SECTION. **Sec. 1.** (1) The legislature intends to reward  
28 schools and school districts with greater autonomy, flexibility, and  
29 control over the operation of the schools and districts when recognized  
30 by the state board of education as having exemplary student  
31 performance, while maintaining the school district's governance  
32 authority and control of recognized schools by the school district  
33 board of directors. The legislature finds that increasing flexibility  
34 requires that only minimal state-level requirements be imposed upon the  
35 recognized schools and districts. It is the intent of the legislature  
36 that this reward will be an incentive to educators, schools, school

1 districts, and communities to continue to strive towards improving  
2 student academic performance through the use of successful learning  
3 strategies.

4 (2) The legislature finds that Washington has a strong history of  
5 local control and that a locally elected school board is vested with  
6 significant governance authority over the schools in the district. The  
7 legislature has no intent to interfere with or lessen that authority  
8 with this act. Instead, the legislature intends to recognize and  
9 reward those school boards of directors that have continually made good  
10 decisions and have helped to promote successful, productive learning  
11 environments in the schools by giving the districts even greater  
12 flexibility.

13 **Sec. 2.** RCW 28A.305.225 and 2009 c 548 s 503 are each amended to  
14 read as follows:

15 (1) The state board of education shall continue to refine the  
16 development of an accountability framework that creates a unified  
17 system of support for challenged schools(~~(7)~~) that aligns with basic  
18 education, increases the level of support based upon the magnitude of  
19 need, and uses data for decisions.

20 (2)(a) The state board of education shall develop an accountability  
21 index to identify public schools and districts for recognition and for  
22 additional state support. The index shall be based on criteria that  
23 are fair, consistent, and transparent. Performance shall be measured  
24 using multiple outcomes and indicators including, but not limited to,  
25 graduation rates and results from statewide assessments. The index  
26 shall be developed in such a way as to be easily understood by both  
27 employees within the schools and districts, as well as parents and  
28 community members. It is the legislature's intent that the index  
29 provide feedback to schools and districts to self-assess their  
30 progress, and enable the identification of schools with exemplary  
31 student performance and those that need assistance to overcome  
32 challenges in order to achieve exemplary student performance.

33 (b) Once the state board of education uses the accountability index  
34 ((has identified)) to identify schools and school districts for  
35 recognition, then the recognized districts shall be rewarded with  
36 greater autonomy, flexibility, and control over the operation of the  
37 schools and districts and shall be required to meet only the minimal

1 state-level requirements for two school years following the school year  
2 in which the school or district was recognized; however the school  
3 district in which any school is recognized shall retain governance  
4 authority and control of recognized schools by the school district  
5 board of directors. The recognized school districts shall retain all  
6 the powers and authority of a school district. The recognized schools  
7 and school districts shall comply only with the following state-level  
8 requirements:

9 (i) To hire, manage, and discharge any school employee in  
10 accordance with the terms of the relevant state law and rules and the  
11 local collective bargaining agreement, including chapters 41.56, 41.58,  
12 and 41.59 RCW; and including employing certificated instructional staff  
13 as required in RCW 28A.410.250, but may hire noncertificated  
14 instructional staff of unusual competence and in exceptional cases as  
15 specified in RCW 28A.150.260;

16 (ii) To comply with the employee record check requirements in RCW  
17 28A.400.303;

18 (iii) To adhere to the state and federal health, safety, parents'  
19 and students' rights, civil rights, special education, privacy, and  
20 nondiscrimination laws, rules, and regulations;

21 (iv) To participate in free and reduced priced meal programs to the  
22 extent required by law;

23 (v) To provide the program of basic education required under RCW  
24 28A.150.200 as it applies to schools and school districts, and  
25 administer the required statewide assessments under chapter 28A.655 RCW  
26 to assess whether a student has met the state standards;

27 (vi) To meet the terms of the performance goals and reporting  
28 requirements under RCW 28A.655.100 and 28A.655.110;

29 (vii) Be subject to the state and federal student accountability  
30 requirements;

31 (viii) Be subject to the annual adoption and filing of the district  
32 budget and financial statements;

33 (ix) Be subject to financial examinations and audits as determined  
34 by the state auditor and the office of the superintendent of public  
35 instruction, including audits for legal and fiscal compliance;

36 (x) To comply with the requirements of chapter 28A.500 RCW for  
37 local effort assistance;

1       (xi) To follow the requirements for the election of school district  
2 directors as provided in chapter 28A.343 RCW;

3       (xii) To comply with the open public meetings act in chapter 42.30  
4 RCW and the open public records requirements in chapter 42.17 RCW; and

5       (xiii) To adhere to the provisions of the interstate compact on  
6 educational opportunity for military children.

7       (b) Once the state board of education uses the accountability index  
8 to identify the schools and districts that need additional help, a more  
9 thorough analysis will be done to analyze specific conditions in the  
10 district including but not limited to the level of state resources a  
11 school or school district receives in support of the basic education  
12 system, achievement gaps for different groups of students, and  
13 community support.

14       (3) Based on the accountability index and in consultation with the  
15 superintendent of public instruction, the state board of education  
16 shall develop a proposal and timeline for implementation of a  
17 comprehensive system of voluntary support and assistance for schools  
18 and districts. The timeline must take into account and accommodate  
19 capacity limitations of the K-12 educational system. Changes that have  
20 a fiscal impact on school districts, as identified by a fiscal analysis  
21 prepared by the office of the superintendent of public instruction,  
22 shall take effect only if formally authorized by the legislature  
23 through the omnibus appropriations act or other enacted legislation.

24       (4)(a) The state board of education shall develop a proposal and  
25 implementation timeline for a more formalized comprehensive system  
26 improvement targeted to challenged schools and districts that have not  
27 demonstrated sufficient improvement through the voluntary system. The  
28 timeline must take into account and accommodate capacity limitations of  
29 the K-12 educational system. The proposal and timeline shall be  
30 submitted to the education committees of the legislature by December 1,  
31 2009, and shall include recommended legislation and recommended  
32 resources to implement the system according to the timeline developed.

33       (b) The proposal shall outline a process for addressing performance  
34 challenges that will include the following features: (i) An academic  
35 performance audit using peer review teams of educators that considers  
36 school and community factors in addition to other factors in developing  
37 recommended specific corrective actions that should be undertaken to  
38 improve student learning; (ii) a requirement for the local school board

1 plan to develop and be responsible for implementation of corrective  
2 action plan taking into account the audit findings, which plan must be  
3 approved by the state board of education at which time the plan becomes  
4 binding upon the school district to implement; and (iii) monitoring of  
5 local district progress by the office of the superintendent of public  
6 instruction. The proposal shall take effect only if formally  
7 authorized by the legislature through the omnibus appropriations act or  
8 other enacted legislation.

9 (5) In coordination with the superintendent of public instruction,  
10 the state board of education shall seek approval from the United States  
11 department of education for use of the accountability index and the  
12 state system of support, assistance, and intervention, to replace the  
13 federal accountability system under P.L. 107-110, the no child left  
14 behind act of 2001.

15 (6) The state board of education shall work with the education data  
16 center established within the office of financial management and the  
17 technical working group established in section 112, chapter 548, Laws  
18 of 2009 to determine the feasibility of using the prototypical funding  
19 allocation model as not only a tool for allocating resources to schools  
20 and districts but also as a tool for schools and districts to report to  
21 the state legislature and the state board of education on how the state  
22 resources received are being used.
