
SENATE BILL 6546

State of Washington

62nd Legislature

2012 Regular Session

By Senators Frockt, Conway, Keiser, and Kline

Read first time 01/30/12. Referred to Committee on Health & Long-Term Care.

1 AN ACT Relating to preventative care and screenings for children in
2 medicaid managed care contracts; and reenacting and amending RCW
3 74.09.522.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 **Sec. 1.** RCW 74.09.522 and 2011 1st sp.s. c 15 s 29, 2011 1st sp.s.
6 c 9 s 2, and 2011 c 316 s 4 are each reenacted and amended to read as
7 follows:

8 (1) For the purposes of this section:

9 (a) "Managed health care system" means any health care
10 organization, including health care providers, insurers, health care
11 service contractors, health maintenance organizations, health insuring
12 organizations, or any combination thereof, that provides directly or by
13 contract health care services covered under this chapter and rendered
14 by licensed providers, on a prepaid capitated basis and that meets the
15 requirements of section 1903(m)(1)(A) of Title XIX of the federal
16 social security act or federal demonstration waivers granted under
17 section 1115(a) of Title XI of the federal social security act;

18 (b) "Nonparticipating provider" means a person, health care
19 provider, practitioner, facility, or entity, acting within their scope

1 of practice, that does not have a written contract to participate in a
2 managed health care system's provider network, but provides health care
3 services to enrollees of programs authorized under this chapter whose
4 health care services are provided by the managed health care system.

5 (2) The authority shall enter into agreements with managed health
6 care systems to provide health care services to recipients of temporary
7 assistance for needy families under the following conditions:

8 (a) Agreements shall be made for at least thirty thousand
9 recipients statewide;

10 (b) Agreements in at least one county shall include enrollment of
11 all recipients of temporary assistance for needy families;

12 (c) To the extent that this provision is consistent with section
13 1903(m) of Title XIX of the federal social security act or federal
14 demonstration waivers granted under section 1115(a) of Title XI of the
15 federal social security act, recipients shall have a choice of systems
16 in which to enroll and shall have the right to terminate their
17 enrollment in a system: PROVIDED, That the authority may limit
18 recipient termination of enrollment without cause to the first month of
19 a period of enrollment, which period shall not exceed twelve months:
20 AND PROVIDED FURTHER, That the authority shall not restrict a
21 recipient's right to terminate enrollment in a system for good cause as
22 established by the authority by rule;

23 (d) To the extent that this provision is consistent with section
24 1903(m) of Title XIX of the federal social security act, participating
25 managed health care systems shall not enroll a disproportionate number
26 of medical assistance recipients within the total numbers of persons
27 served by the managed health care systems, except as authorized by the
28 authority under federal demonstration waivers granted under section
29 1115(a) of Title XI of the federal social security act;

30 (e)(i) In negotiating with managed health care systems the
31 authority shall adopt a uniform procedure to enter into contractual
32 arrangements, to be included in contracts issued or renewed on or after
33 January 1, 2012, including:

34 (A) Standards regarding the quality of services to be provided;

35 (B) The financial integrity of the responding system;

36 (C) Provider reimbursement methods that incentivize chronic care
37 management within health homes;

1 (D) Provider reimbursement methods that reward health homes that,
2 by using chronic care management, reduce emergency department and
3 inpatient use; (~~and~~)

4 (E) Implementation of preventative care and screenings for infants,
5 children, and adolescents as described in section 2713(a)(3) of the
6 federal patient protection and affordable care act; and

7 (F) Promoting provider participation in the program of training and
8 technical assistance regarding care of people with chronic conditions
9 described in RCW 43.70.533, including allocation of funds to support
10 provider participation in the training, unless the managed care system
11 is an integrated health delivery system that has programs in place for
12 chronic care management.

13 (ii)(A) Health home services contracted for under this subsection
14 may be prioritized to enrollees with complex, high cost, or multiple
15 chronic conditions.

16 (B) Contracts that include the items in (e)(i)(C) through (~~(E)~~)
17 (F) of this subsection must not exceed the rates that would be paid in
18 the absence of these provisions;

19 (f) The authority shall seek waivers from federal requirements as
20 necessary to implement this chapter;

21 (g) The authority shall, wherever possible, enter into prepaid
22 capitation contracts that include inpatient care. However, if this is
23 not possible or feasible, the authority may enter into prepaid
24 capitation contracts that do not include inpatient care;

25 (h) The authority shall define those circumstances under which a
26 managed health care system is responsible for out-of-plan services and
27 assure that recipients shall not be charged for such services;

28 (i) Nothing in this section prevents the authority from entering
29 into similar agreements for other groups of people eligible to receive
30 services under this chapter; and

31 (j) The (~~department~~) authority must consult with the federal
32 center for medicare and medicaid innovation and seek funding
33 opportunities to support health homes.

34 (3) The authority shall ensure that publicly supported community
35 health centers and providers in rural areas, who show serious intent
36 and apparent capability to participate as managed health care systems
37 are seriously considered as contractors. The authority shall

1 coordinate its managed care activities with activities under chapter
2 70.47 RCW.

3 (4) The authority shall work jointly with the state of Oregon and
4 other states in this geographical region in order to develop
5 recommendations to be presented to the appropriate federal agencies and
6 the United States congress for improving health care of the poor, while
7 controlling related costs.

8 (5) The legislature finds that competition in the managed health
9 care marketplace is enhanced, in the long term, by the existence of a
10 large number of managed health care system options for medicaid
11 clients. In a managed care delivery system, whose goal is to focus on
12 prevention, primary care, and improved enrollee health status,
13 continuity in care relationships is of substantial importance, and
14 disruption to clients and health care providers should be minimized.
15 To help ensure these goals are met, the following principles shall
16 guide the authority in its healthy options managed health care
17 purchasing efforts:

18 (a) All managed health care systems should have an opportunity to
19 contract with the authority to the extent that minimum contracting
20 requirements defined by the authority are met, at payment rates that
21 enable the authority to operate as far below appropriated spending
22 levels as possible, consistent with the principles established in this
23 section.

24 (b) Managed health care systems should compete for the award of
25 contracts and assignment of medicaid beneficiaries who do not
26 voluntarily select a contracting system, based upon:

27 (i) Demonstrated commitment to or experience in serving low-income
28 populations;

29 (ii) Quality of services provided to enrollees;

30 (iii) Accessibility, including appropriate utilization, of services
31 offered to enrollees;

32 (iv) Demonstrated capability to perform contracted services,
33 including ability to supply an adequate provider network;

34 (v) Payment rates; and

35 (vi) The ability to meet other specifically defined contract
36 requirements established by the authority, including consideration of
37 past and current performance and participation in other state or
38 federal health programs as a contractor.

1 (c) Consideration should be given to using multiple year
2 contracting periods.

3 (d) Quality, accessibility, and demonstrated commitment to serving
4 low-income populations shall be given significant weight in the
5 contracting, evaluation, and assignment process.

6 (e) All contractors that are regulated health carriers must meet
7 state minimum net worth requirements as defined in applicable state
8 laws. The authority shall adopt rules establishing the minimum net
9 worth requirements for contractors that are not regulated health
10 carriers. This subsection does not limit the authority of the
11 Washington state health care authority to take action under a contract
12 upon finding that a contractor's financial status seriously jeopardizes
13 the contractor's ability to meet its contract obligations.

14 (f) Procedures for resolution of disputes between the authority and
15 contract bidders or the authority and contracting carriers related to
16 the award of, or failure to award, a managed care contract must be
17 clearly set out in the procurement document.

18 (6) The authority may apply the principles set forth in subsection
19 (5) of this section to its managed health care purchasing efforts on
20 behalf of clients receiving supplemental security income benefits to
21 the extent appropriate.

22 (7) A managed health care system shall pay a nonparticipating
23 provider that provides a service covered under this chapter to the
24 system's enrollee no more than the lowest amount paid for that service
25 under the managed health care system's contracts with similar providers
26 in the state.

27 (8) For services covered under this chapter to medical assistance
28 or medical care services enrollees and provided on or after August 24,
29 2011, nonparticipating providers must accept as payment in full the
30 amount paid by the managed health care system under subsection (7) of
31 this section in addition to any deductible, coinsurance, or copayment
32 that is due from the enrollee for the service provided. An enrollee is
33 not liable to any nonparticipating provider for covered services,
34 except for amounts due for any deductible, coinsurance, or copayment
35 under the terms and conditions set forth in the managed health care
36 system contract to provide services under this section.

37 (9) Pursuant to federal managed care access standards, 42 C.F.R.
38 Sec. 438, managed health care systems must maintain a network of

1 appropriate providers that is supported by written agreements
2 sufficient to provide adequate access to all services covered under the
3 contract with the ((department)) authority, including hospital-based
4 physician services. The ((department)) authority will monitor and
5 periodically report on the proportion of services provided by
6 contracted providers and nonparticipating providers, by county, for
7 each managed health care system to ensure that managed health care
8 systems are meeting network adequacy requirements. No later than
9 January 1st of each year, the ((department)) authority will review and
10 report its findings to the appropriate policy and fiscal committees of
11 the legislature for the preceding state fiscal year.

12 (10) Subsections (7) through (9) of this section expire July 1,
13 2016.

--- END ---
