1 Strike everything after the enacting clause and insert the  
2 following:

3 "NEW SECTION. **Sec. 1.** (1) The legislature finds that some  
4 licensed child care centers seeking to operate in public schools incur  
5 substantial costs to renovate spaces that are considered safe for  
6 children to use for the purpose of education. Consequently, families  
7 are forced to seek before or after school child care outside of the  
8 school building, resulting in additional transitions for students.

9 (2) It is the legislature's intent to allow licensed child care  
10 centers that serve school-age children to operate in facilities that  
11 provide a safe and healthy environment for children to use for the  
12 purpose of education. With respect to section 2(2) of this act, the  
13 legislature intends that the development of any related child care  
14 licensing requirements shall:

- 15 (a) Ensure safe and healthy environments for children;  
16 (b) Utilize existing rule-making processes and resources;  
17 (c) Utilize existing requirements as a starting point rather than  
18 create an entirely new set of requirements; and  
19 (d) Give due consideration to the burdens imposed by inconsistent  
20 licensing requirements.

21 **Sec. 2.** RCW 43.215.200 and 2007 c 415 s 3 are each amended to read  
22 as follows:

23 It shall be the director's duty with regard to licensing:  
24 (1) In consultation and with the advice and assistance of persons  
25 representative of the various type agencies to be licensed, to  
26 designate categories of child care facilities for which separate or  
27 different requirements shall be developed as may be appropriate whether  
28 because of variations in the ages and other characteristics of the

1 children served, variations in the purposes and services offered or  
2 size or structure of the agencies to be licensed, or because of any  
3 other factor relevant thereto;

4 (2) In consultation with the state fire marshal's office and the  
5 Washington state building code council, the director shall use an  
6 interagency process to address health and safety requirements for child  
7 care programs that serve school-age children and are operated in  
8 buildings that contain public or private schools that safely serve  
9 children during times in which school is in session;

10 (3) In consultation and with the advice and assistance of parents  
11 or guardians, and persons representative of the various type agencies  
12 to be licensed, to adopt and publish minimum requirements for licensing  
13 applicable to each of the various categories of agencies to be licensed  
14 under this chapter;

15 ~~((+3))~~ (4) In consultation with law enforcement personnel, the  
16 director shall investigate the conviction record or pending charges of  
17 each agency and its staff seeking licensure or relicensure, and other  
18 persons having unsupervised access to children in care;

19 ~~((+4))~~ (5) To issue, revoke, or deny licenses to agencies pursuant  
20 to this chapter. Licenses shall specify the category of care that an  
21 agency is authorized to render and the ages and number of children to  
22 be served;

23 ~~((+5))~~ (6) To prescribe the procedures and the form and contents  
24 of reports necessary for the administration of this chapter and to  
25 require regular reports from each licensee;

26 ~~((+6))~~ (7) To inspect agencies periodically to determine whether  
27 or not there is compliance with this chapter and the requirements  
28 adopted under this chapter;

29 ~~((+7))~~ (8) To review requirements adopted under this chapter at  
30 least every two years and to adopt appropriate changes after  
31 consultation with affected groups for child day care requirements; and

32 ~~((+8))~~ (9) To consult with public and private agencies in order to  
33 help them improve their methods and facilities for the care and early  
34 learning of children."
