HB 2231 - H AMD 671 ADOPTED 6-26-91

2 By Representatives Heavey, Broback and Zellinsky

3 On page 3, beginning on line 26, strike all material through
4 "surety." on line 29 and insert "A condition precedent to the
5 surety being liable to any claimant is a final judgment against the
6 licensee, unless the surety desires to make payment without
7 awaiting court action."

EFFECT: Makes technical changes and removes the language
stating that a judgment against the licensee is not
conclusively binding on the surety.
