5 Strike everything after the enacting clause and insert the  
6 following:

7 "NEW SECTION. **Sec. 1.** (1) The legislature finds that:

8 (a) Municipal sewage sludge is an unavoidable byproduct of the  
9 wastewater treatment process;

10 (b) Population increases and technological improvements in  
11 wastewater treatment processes will double the amount of sludge  
12 generated within the next ten years;

13 (c) Sludge management is often a financial burden to municipalities  
14 and to ratepayers;

15 (d) Properly managed municipal sewage sludge is a valuable  
16 commodity and can be beneficially used in agriculture, silviculture,  
17 and in landscapes as a soil conditioner; and

18 (e) Municipal sewage sludge can contain metals and microorganisms  
19 that, under certain circumstances, may pose a risk to public health.

20 (2) The legislature declares that a program shall be established to  
21 manage municipal sewage sludge and that the program shall, to the  
22 maximum extent possible, ensure that municipal sewage sludge is reused  
23 as a beneficial commodity and is managed in a manner that minimizes  
24 risk to public health and the environment."

25 "NEW SECTION. **Sec. 2.** The purpose of this chapter is to  
26 provide the department of ecology and local governments with the  
27 authority and direction to meet federal regulatory requirements for

1 municipal sewage sludge. The department of ecology may seek delegation  
2 and administer the sludge permit program required by the federal clean  
3 water act as it existed February 4, 1987."

5 otherwise, the definitions in this section apply throughout this  
6 chapter.

7 (1) "Biosolids" means municipal sewage sludge that is a primarily  
8 organic, semisolid product resulting from the waste water treatment  
9 process, that can be beneficially recycled and meets all requirements  
10 under this chapter. For the purposes of this chapter, "biosolids"  
11 includes septic tank sludge, also known as septage, that can be  
12 beneficially recycled and meets all requirements under this chapter.

13 (2) "Department" means the department of ecology.

21 implement a biosolid management program within twelve months of the  
22 adoption of federal rules, 40 C.F.R. Sec. 503, relating to technical  
23 standards for the use and disposal of sewage sludge. The biosolid  
24 management program shall, at a minimum, conform with all applicable  
25 federal rules adopted pursuant to the federal clean water act as it  
26 existed on February 4, 1987.

27 (2) In addition to any federal requirements, the state biosolid  
28 management program may include, but not be limited to, an education

1 program to provide relevant legal and scientific information to local  
2 governments and citizen groups.

3 (3) Rules adopted by the department under this section shall  
4 provide for public input and involvement for all state and local  
5 permits.

6 (4) Materials that have received a permit as a biosolid shall be  
7 regulated pursuant to this chapter.

8 (5) The transportation of biosolids and municipal sewage sludge  
9 shall be governed by Title 81 RCW. Certificates issued by the  
10 utilities and transportation commission before the effective date of  
11 this section that include or authorize transportation of municipal  
12 sewage sludge shall continue in force and effect and be interpreted to  
13 include biosolids."

14 "NEW SECTION. Sec. 5. The department may work with all  
15 appropriate state agencies, local governments, and private entities to  
16 establish beneficial uses for biosolids."

17 "NEW SECTION. Sec. 6. If a person violates any provision of  
18 this chapter, or a permit issued or rule adopted pursuant to this  
19 chapter, the department may issue an appropriate order to assure  
20 compliance with the chapter, permit, or rule."

21 "NEW SECTION. Sec. 7. The department, with the assistance of  
22 the attorney general, may bring an action at law or in equity,  
23 including an action for injunctive relief, to enforce this chapter or  
24 a permit issued or rule adopted by the department pursuant to this  
25 chapter."

1        "NEW SECTION.   **Sec. 8.**        A person who willfully violates, without  
2 sufficient cause, any of the provisions of this chapter, or a permit or  
3 order issued pursuant to this chapter, is guilty of a gross  
4 misdemeanor. Willful violation of this chapter, or a permit or order  
5 issued pursuant to this chapter is a gross misdemeanor punishable by a  
6 fine of up to ten thousand dollars and costs of prosecution, or by

11 adopted or issued pursuant to it shall be subject to a penalty in an  
12 amount of up to five thousand dollars a day for each violation. Each  
13 violation shall be a separate violation. In the case of a continuing  
14 violation, each day of violation is a separate violation. An act of

16 shall be considered a violation under this section."

17       "NEW SECTION.   **Sec. 10.**       The department may delegate to a local  
18 health department the powers necessary to issue and enforce permits to  
19 use or dispose of biosolids. A delegation may be withdrawn if the  
20 department finds that a local health department is not effectively  
21 administering the permit program."

22       "NEW SECTION.   **Sec. 11.**       (1) Any permit issued by a local health  
23 department under section 10 of this act may be reviewed by the  
24 department to ensure that the proposed site or facility conforms with  
25 all applicable laws, rules, and standards under this chapter.

26       (2) If the department does not approve or disapprove a permit  
27 within sixty days, the permit shall be considered approved.

1 (3) A local health department may appeal the department's decision  
2 to disapprove a permit to the pollution control hearings board, as

25 encourage recycling and the reduction of the quantity of pollutants.  
26 Fees shall be established in amounts to fully recover and not to exceed  
27 expenses incurred by the department in processing permit applications  
28 and modifications, monitoring and evaluating compliance with permits,

14 amount of all credits not to exceed fifty thousand dollars in the five-  
15 year period.

16 (3) The department shall ensure that indirect dischargers do not  
17 pay twice for the administrative expense of a permit. Accordingly,  
18 administrative expenses for permits issued by a municipality under RCW  
19 90.48.165 are not recoverable by the department.

20 (4) In establishing fees, the department shall consider the

23 runoff and shall provide appropriate adjustments.

24 (5) All fees collected under this section shall be deposited in the  
25 water quality permit account hereby created in the state treasury.
