Brief History:

Reported by House Committee on:
Human Services, January 22, 1992, DPS.

**HOUSE COMMITTEE ON
HUMAN SERVICES**

Majority Report: *The substitute bill be substituted therefor and the substitute bill do pass.* Signed by 11 members: Representatives Leonard, Chair; Riley, Vice Chair; Winsley, Ranking Minority Member; Tate, Assistant Ranking Minority Member; Anderson; Beck; Brekke; Hargrove; Hochstatter; R. King; and H. Myers.

Staff: David Knutson (786-7146).

Background: The state of Washington has expanded the availability of child care for state employees in recent years. Employer sponsored child care results in higher productivity and lower absenteeism. There is currently no single organization in state government to assist agencies to coordinate and develop employee child care services.

Summary of Substitute Bill: A state employee child care program is established in the Department of Personnel. The program will establish a flexible set of child care services and policies designed to meet the child care needs of state employees. The departments of General Administration and Personnel may conduct needs assessments to determine the need for additional child care services. State employees may form nonprofit organizations and contract for the operation of child care facilities. The director of the Office of Financial Management is authorized to make space

available to these organizations free or at reduced rates. The membership of the child care coordinating council is expanded, and the council is directed to work with the Department of Personnel in developing child care arrangements between state agencies and private employers.

Substitute Bill Compared to Original Bill: The director of the Department of Personnel may use existing child care needs assessments rather than conducting new studies. The Child Care Coordinating Council will establish a subcommittee on state employee child care rather than creating a new advisory committee to the director of the Department of Personnel on the same subject. The Child Care Coordinating Council and the Department of Social and Health Services will maintain their current responsibilities for the allocation of state employee child care facility grants, and will not transfer this responsibility to the Department of Personnel. State employee labor organizations are added to the list of organizations which will develop partnerships designed to expand the availability and affordability of quality child care.

Fiscal Note: Not requested.

Effective Date of Substitute Bill: Ninety days after adjournment of session in which bill is passed.

Testimony For: Expanding the availability, affordability, and quality of child care available to state employees will improve worker morale, reduce absenteeism, and increase productivity. State employee labor organizations need to be equal partners in addressing the child care needs of state employees.

Testimony Against: None.
