Background: Insurance premium finance companies are licensed and regulated by the insurance commissioner. Premium finance companies may charge \$10 dollars per \$100 of the premium amount financed plus an acquisition fee of \$10.

Summary of Bill: The charges and fees that a premium finance company may collect are increased. Premium finance companies may charge interest on loans at 18 percent per annum and may also collect an administrative charge of \$30.

Fiscal Note: Not requested.

Effective Date: Ninety days after adjournment of session in which bill is passed.

Testimony For: Premium finance companies often finance very small premiums for groups such as day care operators. However, the interest rate limits for premium finance loans were set in 1969 and these limits are insufficient to cover the costs of very small loans.

Testimony Against: None.
