Background: Statutes and court rules govern the
admissibility in evidence of authenticated and certified
public records.

One statute provides that authenticated court records and
proceedings of any court in the United States, or any state
or territory are admissible in evidence in all cases in this
state.

Another statute provides that certified copies of all
records and documents on record or on file in the offices of
the departments of the United States and of this state are
admissible in evidence in the courts in this state. This
statute does not provide that other states' or territories'
certified records and documents on record or on file may be
admissible in evidence in this state. Evidence Rule, ER
803(8), *Public Records and Reports*, is reserved and refers
to this statute for the law on admissibility of public
records into evidence.

Civil Rule 44 and Evidence Rules 901, 902, and 1005 govern certification and authentication of public records.

Summary of Bill: The statute that governs the admissibility of records in evidence in court is expanded to include certified records from other states and territories of the United States. Certified records from other states and territories of the United States are admissible in evidence in this state.

Fiscal Note: Not requested.

Effective Date: Ninety days after adjournment of session in which bill is passed.
