HOUSE COMMITTEE ON TRANSPORTATION

BACKGROUND:

Carriers that transport property for compensation under individual contracts are regulated as contract carriers by the Utilities and Transportation Commission. When a contract carrier applies for operating authority, the original or certified copy of the carrier's transportation service contract(s) must accompany the permit application.

With the accessibility of photocopy machines in today's society, the filing of an original or certified contract is unnecessary.

SUMMARY:

A photocopy of each transportation service contract must accompany a contract carrier's permit application for Utilities and Transportation Commission operating authority. The original or certified copy of the contract is no longer required.
