**HOUSE COMMITTEE ON COMMERCE & LABOR**

**HOUSE COMMITTEE ON REVENUE**

**BACKGROUND:**

The state of Washington imposes a tax on the sale, use, consumption, handling, possession, or distribution of cigarettes equal to \$.34 per pack. In addition, state and local sales and use taxes apply to the sale of cigarettes equal to approximately \$.16 per pack depending on price. Because price differentials exist between Washington and its neighboring states, an incentive for tax evasion exists.

According to estimates from the Department of Revenue, the state is losing \$17.9 million per year from illegal sales of untaxed cigarettes. These losses occur from casual smuggling from other lower-tax states and the purchase of cigarettes from tax-free outlets such as military post exchanges and Indian smoke shops. Studies indicate that the integrity of state cigarette tax revenues depends on state enforcement actions.

According to a 1990 report of the Legislative Budget Committee, enforcement of the cigarette tax has not been a high priority of the Department of Revenue.

The Liquor Control Board enforces the laws relating to the manufacture, importation, transportation, possession, distribution, and sale of liquor, including applicable taxes and licenses. In carrying out its duties, the board employs liquor enforcement officers who have the authority to enforce the penal laws of the state that are under the board's jurisdiction.

**SUMMARY:**

The duty to enforce the cigarette and tobacco laws is transferred to the Liquor Control Board. Appropriations, personal property, and personnel used by the Department of Revenue in enforcing the cigarette and tobacco laws are

transferred to the Liquor Control Board. In addition, retailers are prohibited from possessing unstamped cigarettes and the wholesaler's surety bond is increased to \$5,000.
