5 (5) Intergrant transfers, between common school and noncommon
6 school trust lands of equal value, may occur, if the noncommon school
7 trust land meets the criteria established by the department for
8 selection of sites and if the exchange is in the interest of both
9 trusts.

10 (6) Lands and timber purchased under subsection (2) of this section
11 shall be managed under chapter 79.70 or 79.71 RCW as determined by the

6 (2) of this section; and

7 (b) The number of classified staff units determined in subsection
8 (3) of this section multiplied by 1.152. This factor is intended to

4 (8) The superintendent may distribute a maximum of \$((9,925,000))
5 9,829,000 outside the basic education formula during fiscal years 1990
6 and 1991 as follows:

7 (a) For fire protection for school districts located in a fire
8 protection district as now or hereafter established pursuant to chapter
9 52.04 RCW, a maximum of \$((358,000)) 350,000 may be expended in fiscal
10 year 1990 and a maximum of \$375,000 in fiscal year 1991.

11 (b) For summer vocational programs at skills centers, a maximum of
12 \$1,321,000 may be expended in fiscal year 1990 and a maximum of

20 on the basis of full time equivalent enrollment in vocational programs.

21 (9) For the purposes of RCW 84.52.0531, the increase per full time
22 equivalent student in state basic education appropriations provided
23 under this act, including appropriations for salary and benefits
24 increases, is 6.07 percent from the 1988-89 school year to the 1989-90
25 school year, and ((7.0)) 8.0 percent from the 1989-90 school year to
26 the 1990-91 school year.

27 (10)(a) The superintendent of public instruction shall revise
28 personnel reporting systems to include information on grade level
29 assignments of basic education certificated instructional staff, by

SPI--For General Apportionment (Basic Education)--cont.

1 grade level groupings of K-3, 4-6, and 7-12. The superintendent of
2 public instruction shall collect such information from school districts
3 beginning in the 1989-90 school year. School districts may submit
4 supplemental information on changes in staffing levels after the
5 initial personnel report for each school year. Staffing ratios
6 calculated under this subsection may recognize additional staff
7 reported, prorated by the number of months of employment during the
8 academic year.

9 (b) For each school year, the funding provided under subsection
10 (2)(a) of this section shall be based on a ratio of fifty-one
11 certificated instructional staff per thousand students in kindergarten
12 through grade three only if the district documents an actual ratio of
13 at least fifty-one full time basic education certificated instructional
14 staff per thousand full time equivalent students at those grade levels.
15 For any school district documenting a lower ratio, the funding provided
16 under this section shall be based on the district's actual K-3 ratio
17 achieved in that school year, or the statutory minimum ratio
18 established under RCW 28A.41.140(2)(c), if greater.

19 (c) School districts that had a ratio of fifty-one basic education
20 certificated instructional staff per thousand students in kindergarten
21 through grade three in the 1988-89 school year shall expend additional
22 funding generated by the increase in staffing ratios provided in this
23 section solely to improve staffing ratios in kindergarten through grade
24 twelve.

25 (11) School districts shall use allocations for salaries and
26 benefits generated under subsection (2)(b) of this section only to
27 increase the district's ratio of basic education certificated
28 instructional staff per thousand full time equivalent students in
29 grades K-3 above fifty-one per thousand, or to employ classified

SPI--For General Apportionment (Basic Education)--cont.

1 instructional assistants assigned to K-3 basic education classrooms.
2 However, a district that has achieved a ratio of fifty-three basic
3 education certificated instructional staff per thousand full time
4 equivalent students in grades K-3 may also use the allocation to employ
5 additional basic education certificated instructional staff or
6 classified instructional assistants in any grades K-12. School
7 districts shall document to the superintendent of public instruction
8 how the allocation was used and shall submit documentation on the
9 number of classified instructional assistants employed in grades K-3 in
10 the 1989-90 and 1990-91 school years. If a district uses moneys
11 provided under subsection (2)(b) of this section for K-3 certificated
12 instructional staff, these staff shall be excluded when determining the
13 district's actual K-3 staffing ratio under subsection (10) of this
14 section. A district shall be ineligible to receive allocations under
15 subsection (2)(b) of this section unless the district documents to the
16 superintendent of public instruction that its actual K-3 ratio under
17 subsection (10) of this section for the 1990-91 school year is at least
18 fifty-one full time basic education certificated instructional staff
19 per thousand full time equivalent students. Districts may not use
20 allocations provided under this subsection to supplant other moneys
21 previously used to employ K-3 certificated instructional staff or K-3
22 classified instructional assistants. The superintendent of public
23 instruction shall recover funding allocated under subsection (2)(b) of
24 this section if the district does not submit documentation showing that
25 the funding was used for the purposes specified.

26 (12) The additional moneys allocated due to the increase in the
27 vocational-secondary staff ratio provided in subsection (2)(d) of this
28 section shall be expended solely for expanded vocational-secondary
29 programs approved by the superintendent of public instruction. Funds

SPI--For General Apportionment (Basic Education)--cont.

1 provided may be expended for extended day contracts. The percentage
2 rate of indirect charges to vocational-secondary programs, in total,
3 shall not exceed the state-wide average percentage rates of indirect
4 charges in all other state-funded categorical programs.

SPI--Basic Education Employee Compensation Increases--cont.

1 (i) Credits earned since receiving the masters degree; and

2 (ii) Any credits in excess of forty-five credits that were earned
3 after the baccalaureate degree but before the masters degree.

4 (8) For the purposes of this section:

5 (a) "BA" means a baccalaureate degree.

6 (b) "MA" means a masters degree.

7 (c) "PHD" means a doctorate degree.

8 (d) "Years of service" shall be calculated under the same rules
9 used by the superintendent of public instruction for salary allocations
10 in the 1988-89 school year.

11 (e) "Credits" means college quarter hour credits and equivalent
12 inservice credits computed in accordance with RCW 28A.71.110.

13 (9) The salary allocation schedules established in subsections (6)
14 and (7) of this section are for allocation purposes only. However, it
15 is the legislature's intent to respond to salary needs of many senior
16 teachers who have not been receiving salary increments on either state
17 or local salary schedules. The legislature and the public recognize
18 the need to provide salary growth for these senior teachers in order to
19 encourage them to continue teaching. School districts should target
20 moneys generated by the additional seniority steps provided for state
21 salary funding in the 1990-91 school year to senior certification
22 instructional staff. By December 1, 1990, each school district shall
23 submit to the superintendent of public instruction a statement signed
24 by the district's board of directors explaining how the moneys
25 generated by the additional seniority steps were used and whether these
26 moneys were targeted to senior staff.

27 **Sec. 503.** 1990 1st ex.s. c 16 s 505 (uncodified) is amended to
28 read as follows:

1 **FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--CATEGORICAL PROGRAM**

20 (a) Transitional bilingual instruction: The rates specified in
21 section 520 of this act shall be increased by \$16.04 per pupil for the
22 1989-90 school year and by \$48.08 per pupil for the 1990-91 school

8 (e) Pupil transportation: The rates provided under section 507 of
9 this act shall be increased by \$0.66 per weighted pupil-mile for the
10 1989-90 school year, and by \$1.35 per weighted pupil-mile for the 1990-
11 91 school year.

12 (3) A maximum of \$((~~30,351,000~~)) 30,601,000 is provided for salary

14 unit allocations in the handicapped program, section 510, and for
15 state-supported staff in institutional education programs, section 515,

17 of public instruction shall distribute salary increases for these
