Brief Description: Regulating bottled water.

SB 6015 - DIGEST

(SUBSTITUTED FOR - SEE 1ST SUB)

Specifies the standards to be maintained by bottled water producers and distributors.

Requires plant operators to develop procedures for notification to agencies and consumers of any adverse health conditions.

Designates procedures for the collection and distribution of artesian, natural, and spring water.

Establishes requirements for the issuance of permits to operate a bottled water plant.

Specifies the requirements for water contaminant monitoring procedures.
