

6202

Sponsor(s): Senators Barr, Stratton, Saling and Amondson; by request of Department of Natural Resources

Brief Description: Enacting the rural homeowners fire protection act.

**SB 6202 - DIGEST**

Requires the development of a rating system to evaluate the levels of wildfire risk to areas located in the wildland/urban interface or intermix.

Directs the building code council to consider fire protection standards for high or extreme hazard risk level areas.

Requires the maintenance of a safe clearance between electrical transmission lines and vegetation.

Prohibits approval of final plats for housing development until fire prevention and protection plans are incorporated.
