

6377-S

Sponsor(s): Senate Committee on Energy & Utilities (originally sponsored by Senator Thorsness)

Brief Description: Modifying provisions for the awarding of TDD distribution and maintenance contracts.

SB 6377-S - DIGEST

(DIGEST AS ENACTED)

Requires the application for certification by the federal communications commission of the state-wide relay service.

Requires the initial contract for the operation and maintenance of the service by July 26, 1993.

Directs the TRS program advisory committee to report on the extent the relay system is meeting the needs of disabled citizens of the state.

Requires telecommunication companies to offer discounts for services used in conjunction with the relay service.
