

1 **SHB 1441 - H AMDS 000202 ADOPTED 03-17-93**

2 By Representatives Rust, Horn and L. Johnson

3 On page 6, line 1, after "(4)" strike all material through
4 "county" on page 6, line 13, and insert "A flood-prone county shall
5 submit to the department of ecology a flood hazard management plan
6 consistent with the model ordinance developed pursuant to section
7 101 of this act by the later of July 1, 1997, or two years after
8 the county has been designated as a flood-prone county. A flood-
9 prone county, and all applicants within that county, are eligible
10 for state matching funds for the public assistance and mitigation
11 programs under P. L 93-288 Secs. 404, 406, and 407, only if the
12 county has adopted a plan meeting the requirements of this
13 subsection"

14
15 On page 7, line 9, after "county" strike all material through
16 "act" on page 8, line 2, and insert "has adopted an ordinance
17 pursuant to section 104 of this act, the county legislative
18 authority of each flood-prone county shall submit an ordinance no
19 less stringent than the model ordinance developed pursuant to
20 section 101 of this act, by the later of July 1, 1995, or within
21 two years of becoming a flood-prone county. A flood-prone county
22 and all applicants within the county are eligible for state
23 matching funds for the public assistance and mitigation programs
24 under P.L. 93-288 Secs. 404, 406, and 407, only if the county has
25 adopted an ordinance no less stringent than the model ordinance
26 developed pursuant to section 101 of this act.

27 (4) Except as provided in subsection (5) of this section, a
28 city or town within a flood-prone county, and all the applicants
29 within that city or town, are eligible for state matching funds for
30 the public assistance and mitigation programs under P.L. 93-288

1 Secs. 404, 406, and 407, only if the city or town has adopted an
2 ordinance no less stringent than the model ordinance developed
3 pursuant to section 101 of this act within one year
4 of the adoption of the county flood hazard management plan.

5 (5) If prior to July 1, 1994, a county has adopted a plan
6 consistent with the model ordinance developed pursuant to section
7 101 of this act, a city or town may satisfy the requirements of
8 subsection (4) of this section prior to July 1, 1995 by:

9 (a) Entering into an interlocal agreement with the county to
10 ensure that development regulations for structures with a footprint
11 of ten thousand square feet or more are consistent with an approved
12 county flood hazard management plan; or

13 (b) Adopting an ordinance consistent with a county flood
14 hazard management plan. An ordinance shall be deemed consistent if
15 approved by the department."

EFFECT: Allows flood-prone cities and towns to enter into interlocal flood plain agreements for large developments rather than adopting ordinances if a county adopts a flood hazard management plan before July 1, 1994. Deletes incorrect references to "section 101 of this act". Eliminates unnecessary references to cities or counties that exempt themselves from the zero-rise provisions of the model ordinance.
