5 in the streams of this state.

6       The director of ecology shall give the director (~~(of fisheries and~~  
7 ~~the director of wildlife))~~) notice of each application for a permit to  
8 divert or store water. The director (~~(of fisheries and director of~~  
9 ~~wildlife have))~~) has thirty days after receiving the notice to state  
10 (~~(their))~~) his or her objections to the application. The permit shall  
11 not be issued until the thirty-day period has elapsed.

12       The director of ecology may refuse to issue a permit if, in the  
13 opinion of the director (~~(of fisheries or director of wildlife)),~~  
14 issuing the permit might result in lowering the flow of water in a  
15 stream below the flow necessary to adequately support food fish and  
16 game fish populations in the stream.

17       The provisions of this section shall in no way affect existing  
18 water rights.

19       **Sec. 30.** RCW 75.20.100 and 1991 c 322 s 30 are each amended to  
20 read as follows:

21       In the event that any person or government agency desires to  
22 construct any form of hydraulic project or perform other work that will  
23 use, divert, obstruct, or change the natural flow or bed of any of the  
24 salt or fresh waters of the state, such person or government agency  
25 shall, before commencing construction or work thereon and to ensure the  
26 proper protection of fish life, secure the written approval of the  
27 department (~~(of fisheries or the department of wildlife))~~) as to the  
28 adequacy of the means proposed for the protection of fish life. This  
29 approval shall not be unreasonably withheld. Except as provided in RCW  
30 75.20.1001 and 75.20.1002, the department (~~(of fisheries or the~~  
31 ~~department of wildlife))~~) shall grant or deny approval within forty-five  
32 calendar days of the receipt of a complete application and notice of  
33 compliance with any applicable requirements of the state environmental  
34 policy act, made in the manner prescribed in this section. The  
35 applicant may document receipt of application by filing in person or by  
36 registered mail. A complete application for approval shall contain  
37 general plans for the overall project, complete plans and  
38 specifications of the proposed construction or work within the mean

1 higher high water line in salt water or within the ordinary high water  
2 line in fresh water, and complete plans and specifications for the  
3 proper protection of fish life. The forty-five day requirement shall  
4 be suspended if (1) after ten working days of receipt of the  
5 application, the applicant remains unavailable or unable to arrange for  
6 a timely field evaluation of the proposed project; (2) the site is  
7 physically inaccessible for inspection; or (3) the applicant requests  
8 delay. Immediately upon determination that the forty-five day period  
9 is suspended, the department (~~(of fisheries or the department of~~  
10 ~~wildlife)~~) shall notify the applicant in writing of the reasons for the  
11 delay. Approval is valid for a period of up to five years from date of  
12 issuance. The permittee must demonstrate substantial progress on  
13 construction of that portion of the project relating to the approval  
14 within two years of the date of issuance. If (~~(either)~~) the department  
15 (~~(of fisheries or the department of wildlife)~~) denies approval,  
16 (~~(that)~~) the department shall provide the applicant, in writing, a  
17 statement of the specific reasons why and how the proposed project  
18 would adversely affect fish life. Protection of fish life shall be the  
19 only ground upon which approval may be denied or conditioned. Chapter  
20 34.05 RCW applies to any denial of project approval, conditional  
21 approval, or requirements for project modification upon which approval  
22 may be contingent. If any person or government agency commences  
23 construction on any hydraulic works or projects subject to this section  
24 without first having obtained written approval of the department (~~(of~~  
25 ~~fisheries or the department of wildlife)~~) as to the adequacy of the  
26 means proposed for the protection of fish life, or if any person or  
27 government agency fails to follow or carry out any of the requirements  
28 or conditions as are made a part of such approval, the person or  
29 director of the agency is guilty of a gross misdemeanor. If any such  
30 person or government agency is convicted of violating any of the  
31 provisions of this section and continues construction on any such works  
32 or projects without fully complying with the provisions hereof, such  
33 works or projects are hereby declared a public nuisance and shall be  
34 subject to abatement as such.

35 For the purposes of this section and RCW 75.20.103, "bed" shall  
36 mean the land below the ordinary high water lines of state waters.  
37 This definition shall not include irrigation ditches, canals, storm  
38 water run-off devices, or other artificial watercourses except where  
39 they exist in a natural watercourse that has been altered by man.

1       The phrase "to construct any form of hydraulic project or perform  
2 other work" shall not include the act of driving across an established  
3 ford. Driving across streams or on wetted stream beds at areas other  
4 than established fords requires approval. Work within the ordinary  
5 high water line of state waters to construct or repair a ford or  
6 crossing requires approval.

7       ~~((For each application, the department of fisheries and the  
8 department of wildlife shall mutually agree on whether the department  
9 of fisheries or the department of wildlife shall administer the  
10 provisions of this section, in order to avoid duplication of effort.  
11 The department designated to act shall cooperate with the other  
12 department in order to protect all species of fish life found at the  
13 project site. If the department of fisheries or the department of  
14 wildlife receives an application concerning a site not in its  
15 jurisdiction, it shall transmit the application to the other department  
16 within three days and notify the applicant.))~~

17       In case of an emergency arising from weather or stream flow  
18 conditions or other natural conditions, the department ~~((of fisheries  
19 or department of wildlife))~~, through ~~((their))~~ its authorized  
20 representatives, shall issue immediately upon request oral approval for  
21 removing any obstructions, repairing existing structures, restoring  
22 stream banks, or to protect property threatened by the stream or a  
23 change in the stream flow without the necessity of obtaining a written  
24 approval prior to commencing work. Conditions of an oral approval  
25 shall be reduced to writing within thirty days and complied with as  
26 provided for in this section. Oral approval shall be granted  
27 immediately upon request, for a stream crossing during an emergency  
28 situation.

29       This section shall not apply to the construction of any form of  
30 hydraulic project or other work which diverts water for agricultural  
31 irrigation or stock watering purposes authorized under or recognized as  
32 being valid by the state's water codes, or when such hydraulic project  
33 or other work is associated with streambank stabilization to protect  
34 farm and agricultural land as defined in RCW 84.34.020. These  
35 irrigation or stock watering diversion and streambank stabilization  
36 projects shall be governed by RCW 75.20.103.

37       **Sec. 31.** RCW 75.20.1001 and 1991 c 322 s 12 are each amended to  
38 read as follows:

1       The department (~~of fisheries and the department of wildlife~~)  
2 shall process hydraulic project applications submitted under RCW  
3 75.20.100 or 75.20.103 within thirty days of receipt of the  
4 application. This requirement is only applicable for the repair and  
5 reconstruction of legally constructed dikes, seawalls, and other flood  
6 control structures damaged as a result of flooding or windstorms that  
7 occurred in November and December 1990.

8       **Sec. 32.** RCW 75.20.103 and 1991 c 322 s 31 are each amended to  
9 read as follows:

10       In the event that any person or government agency desires to  
11 construct any form of hydraulic project or other work that diverts  
12 water for agricultural irrigation or stock watering purposes, or when  
13 such hydraulic project or other work is associated with streambank  
14 stabilization to protect farm and agricultural land as defined in RCW  
15 84.34.020, and when such diversion or streambank stabilization will  
16 use, divert, obstruct, or change the natural flow or bed of any river  
17 or stream or will utilize any waters of the state or materials from the  
18 stream beds, the person or government agency shall, before commencing  
19 construction or work thereon and to ensure the proper protection of  
20 fish life, secure a written approval from the department (~~of fisheries  
21 or the department of wildlife~~) as to the adequacy of the means  
22 proposed for the protection of fish life. This approval shall not be  
23 unreasonably withheld. Except as provided in RCW 75.20.1001 and  
24 75.20.1002, the department (~~of fisheries or the department of  
25 wildlife~~) shall grant or deny the approval within forty-five calendar  
26 days of the receipt of a complete application and notice of compliance  
27 with any applicable requirements of the state environmental policy act,  
28 made in the manner prescribed in this section. The applicant may  
29 document receipt of application by filing in person or by registered  
30 mail. A complete application for an approval shall contain general  
31 plans for the overall project, complete plans and specifications of the  
32 proposed construction or work within ordinary high water line, and  
33 complete plans and specifications for the proper protection of fish  
34 life. The forty-five day requirement shall be suspended if (1) after  
35 ten working days of receipt of the application, the applicant remains  
36 unavailable or unable to arrange for a timely field evaluation of the  
37 proposed project; (2) the site is physically inaccessible for  
38 inspection; or (3) the applicant requests delay.

1 Immediately upon determination that the forty-five day period is  
2 suspended, the department (~~of fisheries or the department of~~  
3 ~~wildlife~~) shall notify the applicant in writing of the reasons for the  
4 delay.

5 An approval shall remain in effect without need for periodic  
6 renewal for projects that divert water for agricultural irrigation or  
7 stock watering purposes and that involve seasonal construction or other  
8 work. Approval for streambank stabilization projects shall remain in  
9 effect without need for periodic renewal if the problem causing the  
10 need for the streambank stabilization occurs on an annual or more  
11 frequent basis. The permittee must notify the appropriate agency  
12 before commencing the construction or other work within the area  
13 covered by the approval.

14 The permittee must demonstrate substantial progress on construction  
15 of that portion of the project relating to the approval within two  
16 years of the date of issuance. If (~~either~~) the department (~~of~~  
17 ~~fisheries or the department of wildlife~~) denies approval, (~~that~~) the  
18 department shall provide the applicant, in writing, a statement of the  
19 specific reasons why and how the proposed project would adversely  
20 affect fish life. Protection of fish life shall be the only ground  
21 upon which approval may be denied or conditioned. Issuance, denial,  
22 conditioning, or modification shall be appealable to the hydraulic  
23 appeals board established in RCW 43.21B.005 within thirty days of the  
24 notice of decision. The burden shall be upon the department (~~of~~  
25 ~~fisheries or the department of wildlife~~) to show that the denial or  
26 conditioning of an approval is solely aimed at the protection of fish  
27 life.

28 The department (~~granting approval~~) may, after consultation with  
29 the permittee, modify an approval due to changed conditions. The  
30 modifications shall become effective unless appealed to the hydraulic  
31 appeals board within thirty days from the notice of the proposed  
32 modification. The burden is on the department (~~issuing the approval~~)  
33 to show that changed conditions warrant the modification in order to  
34 protect fish life.

35 A permittee may request modification of an approval due to changed  
36 conditions. The request shall be processed within forty-five calendar  
37 days of receipt of the written request. A decision by the department  
38 (~~that issued the approval~~) may be appealed to the hydraulic appeals  
39 board within thirty days of the notice of the decision. The burden is

1 on the permittee to show that changed conditions warrant the requested  
2 modification and that such modification will not impair fish life.

3 If any person or government agency commences construction on any  
4 hydraulic works or projects subject to this section without first  
5 having obtained written approval of the department (~~of fisheries or~~  
6 ~~the department of wildlife~~) as to the adequacy of the means proposed  
7 for the protection of fish life, or if any person or government agency  
8 fails to follow or carry out any of the requirements or conditions as  
9 are made a part of such approval, the person or director of the agency  
10 is guilty of a gross misdemeanor. If any such person or government  
11 agency is convicted of violating any of the provisions of this section  
12 and continues construction on any such works or projects without fully  
13 complying with the provisions hereof, such works or projects are hereby  
14 declared a public nuisance and shall be subject to abatement as such.

15 (~~For each application, the department of fisheries and the~~  
16 ~~department of wildlife shall mutually agree on whether the department~~  
17 ~~of fisheries or the department of wildlife shall administer the~~  
18 ~~provisions of this section, in order to avoid duplication of effort.~~  
19 ~~The department designated to act shall cooperate with the other~~  
20 ~~department in order to protect all species of fish life found at the~~  
21 ~~project site. If the department of fisheries or the department of~~  
22 ~~wildlife receives an application concerning a site not in its~~  
23 ~~jurisdiction, it shall transmit the application to the other department~~  
24 ~~within three days and notify the applicant.))~~

25 In case of an emergency arising from weather or stream flow  
26 conditions or other natural conditions, the department (~~of fisheries~~  
27 ~~or department of wildlife~~), through (~~their~~) its authorized  
28 representatives, shall issue immediately upon request oral approval for  
29 removing any obstructions, repairing existing structures, restoring  
30 stream banks, or to protect property threatened by the stream or a  
31 change in the stream flow without the necessity of obtaining a written  
32 approval prior to commencing work. Conditions of an oral approval  
33 shall be reduced to writing within thirty days and complied with as  
34 provided for in this section.

35 For purposes of this chapter, "streambank stabilization" shall  
36 include but not be limited to log and debris removal, bank protection  
37 (including riprap, jetties, and groins), gravel removal and erosion  
38 control.

1       **Sec. 33.** RCW 75.20.104 and 1991 c 322 s 18 are each amended to  
2 read as follows:

3       Whenever the placement of woody debris is required as a condition  
4 of a hydraulic permit approval issued pursuant to RCW 75.20.100 or  
5 75.20.103, the department (~~((of fisheries and the department of~~  
6 ~~wildlife))~~), upon request, shall invite comment regarding that placement  
7 from the local governmental authority, affected tribes, affected  
8 federal and state agencies, and the project applicant.

9       **Sec. 34.** RCW 75.20.1041 and 1991 c 322 s 19 are each amended to  
10 read as follows:

11       The department (~~((of fisheries, the department of wildlife,))~~) and  
12 the department of ecology will work cooperatively with the United  
13 States army corps of engineers to develop a memorandum of agreement  
14 outlining dike vegetation management guidelines so that dike owners are  
15 eligible for coverage under P.L. 84-99, and state requirements  
16 established pursuant to RCW 75.20.100 and 75.20.103 are met.

17       **Sec. 35.** RCW 75.20.106 and 1988 c 36 s 35 are each amended to read  
18 as follows:

19       The department (~~((of fisheries and the department of wildlife))~~) may  
20 ~~((each))~~ levy civil penalties of up to one hundred dollars per day for  
21 violation of any provisions of RCW 75.20.100 or 75.20.103. The penalty  
22 provided shall be imposed by notice in writing, either by certified  
23 mail or personal service to the person incurring the penalty, from the  
24 director (~~((of the appropriate department))~~) or ~~((that))~~ the director's  
25 designee describing the violation. Any person incurring any penalty  
26 under this chapter may appeal the same under chapter 34.05 RCW to the  
27 director (~~((of the department levying the penalty))~~). Appeals shall be  
28 filed within thirty days of receipt of notice imposing any penalty.  
29 The penalty imposed shall become due and payable thirty days after  
30 receipt of a notice imposing the penalty unless an appeal is filed.  
31 Whenever an appeal of any penalty incurred under this chapter is filed,  
32 the penalty shall become due and payable only upon completion of all  
33 review proceedings and the issuance of a final order confirming the  
34 penalty in whole or in part.

35       If the amount of any penalty is not paid within thirty days after  
36 it becomes due and payable the attorney general, upon the request of  
37 the director (~~((of the department of fisheries or the department of~~

1 wildlife)) shall bring an action in the name of the state of Washington  
2 in the superior court of Thurston county or of any county in which such  
3 violator may do business, to recover such penalty. In all such actions  
4 the procedure and rules of evidence shall be the same as an ordinary  
5 civil action. All penalties recovered under this section shall be paid  
6 into the state's general fund.

7 **Sec. 36.** RCW 75.20.110 and 1988 c 36 s 36 are each amended to read  
8 as follows:

9 (1) Except for the north fork of the Lewis river and the White  
10 Salmon river, all streams and rivers tributary to the Columbia river  
11 downstream from McNary dam are established as an anadromous fish  
12 sanctuary. This sanctuary is created to preserve and develop the food  
13 fish and game fish resources in these streams and rivers and to protect  
14 them against undue industrial encroachment.

15 (2) Within the sanctuary area:

16 (a) It is unlawful to construct a dam greater than twenty-five feet  
17 high within the migration range of anadromous fish as ((jointly))  
18 determined by the director ((of fisheries and the director of  
19 wildlife)).

20 (b) Except by ((concurrent)) order of the director ((of fisheries  
21 and director of wildlife)), it is unlawful to divert water from rivers  
22 and streams in quantities that will reduce the respective stream flow  
23 below the annual average low flow, based upon data published in United  
24 States geological survey reports.

25 (3) The director ((of fisheries and the director of wildlife)) may  
26 acquire and abate a dam or other obstruction, or acquire any water  
27 right vested on a sanctuary stream or river, which is in conflict with  
28 the provisions of subsection (2) of this section.

29 (4) Subsection (2)(a) of this section does not apply to the  
30 sediment retention structure to be built on the North Fork Toutle river  
31 by the United States army corps of engineers.

32 **Sec. 37.** RCW 75.20.130 and 1989 c 175 s 160 are each amended to  
33 read as follows:

34 (1) There is hereby created within the environmental hearings  
35 office under RCW 43.21B.005 the hydraulic appeals board of the state of  
36 Washington.

1 (2) The hydraulic appeals board shall consist of three members:  
2 The director of the department of ecology or the director's designee,  
3 the director of the department of agriculture or the director's  
4 designee, and the director or the director's designee of the department  
5 whose action is appealed under subsection (6) of this section. A  
6 decision must be agreed to by at least two members of the board to be  
7 final.

8 (3) The board may adopt rules necessary for the conduct of its  
9 powers and duties or for transacting other official business.

10 (4) The board shall make findings of fact and prepare a written  
11 decision in each case decided by it, and that finding and decision  
12 shall be effective upon being signed by two or more board members and  
13 upon being filed at the hydraulic appeals board's principal office, and  
14 shall be open to public inspection at all reasonable times.

15 (5) The board has exclusive jurisdiction to hear appeals arising  
16 from the approval, denial, conditioning, or modification of a hydraulic  
17 approval issued by ((either)) the department ((of fisheries or the  
18 department of wildlife)) under the authority granted in RCW 75.20.103  
19 for the diversion of water for agricultural irrigation or stock  
20 watering purposes or when associated with streambank stabilization to  
21 protect farm and agricultural land as defined in RCW 84.34.020.

22 (6)(a) Any person aggrieved by the approval, denial, conditioning,  
23 or modification of a hydraulic approval pursuant to RCW 75.20.103 may  
24 seek review from the board by filing a request for the same within  
25 thirty days of notice of the approval, denial, conditioning, or  
26 modification of such approval.

27 (b) The review proceedings authorized in (a) of this subsection are  
28 subject to the provisions of chapter 34.05 RCW pertaining to procedures  
29 in adjudicative proceedings.

30 **Sec. 38.** RCW 75.20.300 and 1989 c 213 s 3 are each amended to read  
31 as follows:

32 (1) The legislature intends to expedite flood-control, acquisition  
33 of sites for sediment retention, and dredging operations in those  
34 rivers affected by the May 1980 eruption of Mt. St. Helens, while  
35 continuing to protect the fish resources of these rivers.

36 (2) The director ((of fisheries and director of wildlife)) shall  
37 process hydraulic project applications submitted under RCW 75.20.100  
38 within fifteen working days of receipt of the application. This

1 requirement is only applicable to flood control and dredging projects  
2 located in the Cowlitz river from mile 22 to the confluence with the  
3 Columbia, and in the Toutle river from the mouth to the North Fork  
4 Toutle sediment dam site at North Fork mile 12, and to river mile 3 on  
5 the South Fork Toutle river, and volcano-affected areas of the Columbia  
6 river.

7 (3) For the purposes of this section, the emergency provisions of  
8 RCW 75.20.100 may be initiated by the county legislative authority if  
9 the project is necessary to protect human life or property from flood  
10 hazards, including:

11 (a) Flood fight measures necessary to provide protection during a  
12 flood event; or

13 (b) Measures necessary to reduce or eliminate a potential flood  
14 threat when other alternative measures are not available or cannot be  
15 completed prior to the expected flood threat season; or

16 (c) Measures which must be initiated and completed within an  
17 immediate period of time and for which processing of the request  
18 through normal methods would cause a delay to the project and such  
19 delay would significantly increase the potential for damages from a  
20 flood event.

21 (4) This section does not apply to the sediment retention structure  
22 to be built on the North Fork Toutle river by the United States army  
23 corps of engineers.

24 (5) This section expires on June 30, 1995.

25 **Sec. 39.** RCW 75.20.310 and 1988 c 36 s 39 are each amended to read  
26 as follows:

27 The legislature recognizes the need to mitigate the effects of  
28 sedimentary build-up and resultant damage to fish population in the  
29 Toutle river resulting from the Mt. St. Helens eruption. The state has  
30 entered into a contractual agreement with the United States army corps  
31 of engineers designed to minimize fish habitat disruption created by  
32 the sediment retention structure on the Toutle river, under which the  
33 corps has agreed to construct a fish collection facility at the  
34 sediment retention structure site conditional upon the state assuming  
35 the maintenance and operation costs of the facility. The department  
36 (~~of wildlife and the department of fisheries~~) shall (~~cooperatively~~)  
37 operate and maintain a fish collection facility on the Toutle river.

1 ((Each agency shall share in the cost of operating and maintaining the  
2 facility.))

3 **Sec. 40.** RCW 75.24.065 and 1985 c 256 s 2 are each amended to read  
4 as follows:

5 The legislature finds that current environmental and economic  
6 conditions warrant a renewal of the state's historical practice of  
7 actively cultivating and managing its oyster reserves in Puget Sound to  
8 produce the state's native oyster, the Olympia oyster. The department  
9 ((of fisheries)) shall reestablish dike cultivated production of  
10 Olympia oysters on such reserves on a trial basis as a tool for  
11 planning more comprehensive cultivation by the state.

12 **Sec. 41.** RCW 75.25.005 and 1989 c 305 s 1 are each amended to read  
13 as follows:

14 The following recreational fishing licenses are administered and  
15 issued by the department ((of fisheries)) under authority of the  
16 director ((of fisheries)):

- 17 (1) Hood Canal shrimp license;
- 18 (2) Razor clam license;
- 19 (3) Personal use fishing license;
- 20 (4) Salmon license; and
- 21 (5) Sturgeon license.

22 **Sec. 42.** RCW 75.25.080 and 1989 c 305 s 4 are each amended to read  
23 as follows:

24 (1) It is lawful to dig the personal-use daily bag limit of razor  
25 clams for another person if that person has in possession a physical  
26 disability permit issued by the director.

27 (2) An application for a physical disability permit must be  
28 submitted on a department ((of fisheries)) official form and must be  
29 accompanied by a licensed medical doctor's certification of disability.

30 **Sec. 43.** RCW 75.25.170 and 1989 c 305 s 16 are each amended to  
31 read as follows:

32 Fees received for recreational licenses required under this chapter  
33 shall be deposited in the general fund and shall be appropriated for  
34 management, enhancement, research, and enforcement purposes of the

1 shellfish, salmon, and marine fish programs of the department ((of  
2 fisheries)).

3 **Sec. 44.** RCW 75.25.180 and 1989 c 305 s 14 are each amended to  
4 read as follows:

5 Recreational licenses issued by the department ((of fisheries))  
6 under this chapter are valid for the following periods:

7 (1) Recreational licenses issued without charge to persons  
8 designated by this chapter are valid:

9 (a) For life for blind persons;

10 (b) For the period of continued state residency for qualified  
11 disabled veterans;

12 (c) For the period of continued state residency for persons sixty-  
13 five years of age or more;

14 (d) For the period of the disability for persons with a  
15 developmental disability;

16 (e) For life for handicapped persons confined to a wheelchair who  
17 have been issued a permanent disability card; and

18 (f) Until a child reaches fifteen years of age.

19 (2) Two-consecutive-day personal use licenses expire at midnight on  
20 the day following the validation date written on the license by the  
21 license dealer, except two-consecutive-day personal use licenses  
22 validated for December 31 expire at midnight on that date.

23 (3) An annual salmon license is valid for a maximum catch of  
24 fifteen salmon, after which another salmon license may be purchased.  
25 A salmon license is valid only for the calendar year for which it is  
26 issued.

27 (4) An annual sturgeon license is valid for a maximum catch of  
28 fifteen sturgeon. A sturgeon license is valid only for the calendar  
29 year for which it is issued.

30 (5) All other recreational licenses are valid for the calendar year  
31 for which they are issued.

32 **Sec. 45.** RCW 75.50.010 and 1985 c 458 s 1 are each amended to read  
33 as follows:

34 Currently, many of the salmon stocks of Washington state are  
35 critically reduced from their sustainable level. The best interests of  
36 all fishing groups and the citizens as a whole are served by a stable  
37 and productive salmon resource. Immediate action is needed to reverse

1 the severe decline of the resource and to insure its very survival.  
2 The legislature finds a state of emergency exists and that immediate  
3 action is required to restore its fishery.

4 Disagreement and strife have dominated the salmon fisheries for  
5 many years. Conflicts among the various fishing interests have only  
6 served to erode the resource. It is time for the state of Washington  
7 to make a major commitment to increasing productivity of the resource  
8 and to move forward with an effective rehabilitation and enhancement  
9 program. The department (~~(of fisheries)~~) is directed to dedicate its  
10 efforts to make increasing the productivity of the salmon resource a  
11 first priority and to seek resolution to the many conflicts that  
12 involve the resource.

13 Success of the enhancement program can only occur if projects  
14 efficiently produce salmon or restore habitat. The expectation of the  
15 program is to optimize the efficient use of funding on projects that  
16 will increase artificially and naturally produced salmon, restore and  
17 improve habitat, or identify ways to increase the survival of salmon.  
18 The full utilization of state resources and cooperative efforts with  
19 interested groups are essential to the success of the program.

20 **Sec. 46.** RCW 75.50.070 and 1989 c 426 s 1 are each amended to read  
21 as follows:

22 The legislature finds that it is in the best interest of the salmon  
23 resource of the state to encourage the development of regional  
24 fisheries enhancement groups. The accomplishments of one existing  
25 group, the Grays Harbor fisheries enhancement task force, have been  
26 widely recognized as being exemplary. The legislature recognizes the  
27 potential benefits to the state that would occur if each region of the  
28 state had a similar group of dedicated citizens working to enhance the  
29 salmon resource.

30 The legislature authorizes the formation of regional fisheries  
31 enhancement groups. These groups shall be eligible for state financial  
32 support and shall be actively supported by the department (~~(of~~  
33 ~~fisheries)~~). The regional groups shall be operated on a strictly  
34 nonprofit basis, and shall seek to maximize the efforts of volunteer  
35 and private donations to improve the salmon resource for all citizens  
36 of the state.

1       **Sec. 47.** RCW 75.50.080 and 1989 c 426 s 4 are each amended to read  
2 as follows:

3       Regional fisheries enhancement groups, consistent with the long-  
4 term regional policy statements developed under RCW 75.50.020, shall  
5 seek to:

6       (1) Enhance the salmon resource of the state;

7       (2) Maximize volunteer efforts and private donations to improve the  
8 salmon resource for all citizens;

9       (3) Assist the department in achieving the goal to double the  
10 state-wide salmon catch by the year 2000 under chapter 214, Laws of  
11 1988; and

12       (4) Develop projects designed to supplement the fishery enhancement  
13 capability of the department (~~(of fisheries)~~).

14       **Sec. 48.** RCW 75.50.130 and 1992 c 88 s 1 are each amended to read  
15 as follows:

16       The director (~~(of fisheries)~~) shall prepare a salmon recovery plan  
17 for the Skagit river. The plan shall include strategies for employing  
18 displaced timber workers to conduct salmon restoration and other tasks  
19 identified in the plan. The plan shall incorporate the best available  
20 technology in order to achieve maximum restoration of depressed salmon  
21 stocks. The plan must encourage the restoration of natural spawning  
22 areas and natural rearing of salmon but must not preclude the  
23 development of an active hatchery program.

24       **Sec. 49.** RCW 75.52.010 and 1988 c 36 s 41 are each amended to read  
25 as follows:

26       The fish and (~~(game)~~) wildlife resources of the state benefit by  
27 the contribution of volunteer recreational and commercial fishing  
28 organizations, schools, and other volunteer groups in cooperative  
29 projects under agreement with the department (~~(of fisheries or the~~  
30 ~~department of wildlife)~~). These projects provide educational  
31 opportunities, improve the communication between the natural resources  
32 agencies and the public, and increase the fish and game resources of  
33 the state. In an effort to increase these benefits and realize the  
34 full potential of cooperative projects, the department (~~(of fisheries~~  
35 ~~and the department of wildlife each)~~) shall administer a cooperative  
36 fish and wildlife enhancement program and enter agreements with  
37 volunteer groups relating to the operation of cooperative projects.

1       **Sec. 50.** RCW 75.52.020 and 1988 c 36 s 42 are each amended to read  
2 as follows:

3       Unless the context clearly requires otherwise, the definitions in  
4 this section apply throughout this chapter.

5       (1) "Volunteer group" means any person or group of persons  
6 interested in or party to an agreement with the department (~~of~~  
7 ~~fisheries or the department of wildlife~~) relating to a cooperative  
8 fish or (~~game~~) wildlife project.

9       (2) "Cooperative project" means a project conducted by a volunteer  
10 group that will benefit the fish, shellfish, game bird, nongame  
11 wildlife, or game animal resources of the state and for which the  
12 benefits of the project, including fish and (~~game~~) wildlife reared  
13 and released, are available to all citizens of the state. Indian  
14 tribes may elect to participate in cooperative fish and wildlife  
15 projects with the department.

16       (3) "Department" means (~~either~~) the department of (~~fisheries or~~  
17 ~~the department of~~) fish and wildlife (~~(, whichever is responsible for~~  
18 ~~managing the species of fish or game most affected by the cooperative~~  
19 ~~project)~~).

20       **Sec. 51.** RCW 75.52.035 and 1987 c 48 s 1 are each amended to read  
21 as follows:

22       The department (~~of fisheries~~) may authorize the sale of surplus  
23 salmon eggs and carcasses by permitted cooperative projects for the  
24 purposes of defraying the expenses of the cooperative project. In no  
25 instance shall the department allow a profit to be realized through  
26 such sales. The department shall adopt rules to implement this section  
27 pursuant to chapter 34.05 RCW.

28       **Sec. 52.** RCW 75.52.100 and 1989 c 85 s 3 are each amended to read  
29 as follows:

30       A salmon spawning channel shall be constructed on the Cedar river  
31 with the assistance and cooperation of the (~~state~~) department (~~of~~  
32 ~~fisheries~~). The department shall use existing personnel and the  
33 volunteer fisheries enhancement program outlined under chapter 75.52  
34 RCW to assist in the planning, construction, and operation of the  
35 spawning channel.

1       **Sec. 53.** RCW 75.52.110 and 1989 c 85 s 4 are each amended to read  
2 as follows:

3       The department (~~(of fisheries)~~) shall chair a technical committee,  
4 which shall review the preparation of enhancement plans and  
5 construction designs for a Cedar river sockeye spawning channel. The  
6 technical committee shall consist of not more than eight members: One  
7 representative each from the department (~~(of fisheries)~~), national  
8 marine fisheries service, United States fish and wildlife service, and  
9 Muckleshoot Indian tribe; and four representatives from the public  
10 utility described in RCW 75.52.130. The technical committee will be  
11 guided by a policy committee, also to be chaired by the department (~~(of~~  
12 ~~fisheries)~~), which shall consist of not more than six members: One  
13 representative from the department (~~(of fisheries)~~), one from the  
14 Muckleshoot Indian tribe, and one from either the national marine  
15 fisheries service or the United States fish and wildlife service; and  
16 three representatives from the public utility described in RCW  
17 75.52.130. The policy committee shall present a progress report to the  
18 senate and house of representatives natural resources and environment  
19 committees by January 1, 1990, and shall oversee the operation and  
20 evaluation of the spawning channel. The policy committee will continue  
21 its oversight until the policy committee concludes that the channel is  
22 meeting the production goals specified in RCW 75.52.120.

23       **Sec. 54.** RCW 75.52.160 and 1989 c 85 s 10 are each amended to read  
24 as follows:

25       Should the requirements of RCW 75.52.100 through 75.52.160 not be  
26 met, the department (~~(of fisheries)~~) shall seek immediate legal  
27 clarification of the steps which must be taken to fully mitigate water  
28 diversion projects on the Cedar river.

29       **Sec. 55.** RCW 75.58.010 and 1988 c 36 s 43 are each amended to read  
30 as follows:

31       (1) The director of agriculture and the director (~~(of fisheries)~~)  
32 shall jointly develop a program of disease inspection and control for  
33 aquatic farmers as defined in RCW 15.85.020. The program shall be  
34 administered by the department (~~(of fisheries)~~) under rules established  
35 under this section. The purpose of the program is to protect the  
36 aquaculture industry and wildstock fisheries from a loss of  
37 productivity due to aquatic diseases or maladies. As used in this

1 section "diseases" means, in addition to its ordinary meaning,  
2 infestations of parasites or pests. The disease program may include,  
3 but is not limited to, the following elements:

4 (a) Disease diagnosis;

5 (b) Import and transfer requirements;

6 (c) Provision for certification of stocks;

7 (d) Classification of diseases by severity;

8 (e) Provision for treatment of selected high-risk diseases;

9 (f) Provision for containment and eradication of high-risk  
10 diseases;

11 (g) Provision for destruction of diseased cultured aquatic  
12 products;

13 (h) Provision for quarantine of diseased cultured aquatic products;

14 (i) Provision for coordination with state and federal agencies;

15 (j) Provision for development of preventative or control measures;

16 (k) Provision for cooperative consultation service to aquatic  
17 farmers; and

18 (l) Provision for disease history records.

19 (2) The director (~~(of fisheries)~~) shall adopt rules implementing  
20 this section. However, such rules shall have the prior approval of the  
21 director of agriculture and shall provide therein that the director of  
22 agriculture has provided such approval. The director of agriculture or  
23 the director's designee shall attend the rule-making hearings conducted  
24 under chapter 34.05 RCW and shall assist in conducting those hearings.  
25 The authorities granted the department (~~(of fisheries)~~) by these rules  
26 and by RCW 75.08.080(1)(g), 75.24.080, 75.24.110, 75.28.125, 75.58.020,  
27 75.58.030, and 75.58.040 constitute the only authorities of the  
28 department (~~(of fisheries)~~) to regulate private sector cultured aquatic  
29 products and aquatic farmers as defined in RCW 15.85.020. Except as  
30 provided in subsection (3) of this section, no action may be taken  
31 against any person to enforce these rules unless the department has  
32 first provided the person an opportunity for a hearing. In such a  
33 case, if the hearing is requested, no enforcement action may be taken  
34 before the conclusion of that hearing.

35 (3) The rules adopted under this section shall specify the  
36 emergency enforcement actions that may be taken by the department (~~(of~~  
37 ~~fisheries)~~), and the circumstances under which they may be taken,  
38 without first providing the affected party with an opportunity for a  
39 hearing. Neither the provisions of this subsection nor the provisions

1 of subsection (2) of this section shall preclude the department ((of  
2 fisheries)) from requesting the initiation of criminal proceedings for  
3 violations of the disease inspection and control rules.

4 (4) It is unlawful for any person to violate the rules adopted  
5 under subsection (2) or (3) of this section or to violate RCW  
6 75.58.040.

7 (5) In administering the program established under this section,  
8 the department ((of fisheries)) shall use the services of a pathologist  
9 licensed to practice veterinary medicine.

10 (6) The director in administering the program shall not place  
11 constraints on or take enforcement actions in respect to the  
12 aquaculture industry that are more rigorous than those placed on the  
13 department ((of fisheries, the department of wildlife,)) or other fish-  
14 rearing entities.

15 **Sec. 56.** RCW 75.58.020 and 1985 c 457 s 9 are each amended to read  
16 as follows:

17 The directors of agriculture and ((fisheries)) fish and wildlife  
18 shall jointly adopt by rule, in the manner prescribed in RCW  
19 75.58.010(2), a schedule of user fees for the disease inspection and  
20 control program established under RCW 75.58.010. The fees shall be  
21 established such that the program shall be entirely funded by revenues  
22 derived from the user fees by the beginning of the 1987-89 biennium.

23 There is established in the state treasury an account known as the  
24 aquaculture disease control account which is subject to appropriation.  
25 Proceeds of fees charged under this section shall be deposited in the  
26 account. Moneys from the account shall be used solely for  
27 administering the disease inspection and control program established  
28 under RCW 75.58.010.

29 **Sec. 57.** RCW 75.58.030 and 1988 c 36 s 44 are each amended to read  
30 as follows:

31 (1) The director ((of fisheries)) shall consult regarding the  
32 disease inspection and control program established under RCW 75.58.010  
33 with ((the department of wildlife,)) federal agencies((,)) and Indian  
34 tribes to assure protection of state, federal, and tribal aquatic  
35 resources and to protect private sector cultured aquatic products from  
36 disease that could originate from waters or facilities managed by those  
37 agencies.

1 (2) With regard to the program, the director (~~((of fisheries))~~) may  
2 enter into contracts or interagency agreements for diagnostic field  
3 services with government agencies and institutions of higher education

27 fund shall be used only for the department of fish and wildlife after  
28 June 30, 1994.

29 NEW SECTION. **Sec. 80.** The following acts or parts of acts are  
30 each repealed:

31 (1) RCW 43.131.375 and 1991 c 253 s 5; and

32 (2) RCW 43.131.376 and 1991 c 253 s 6.

33 NEW SECTION. **Sec. 81.** Sections 1 through 6 and 78 of this act

1        NEW SECTION.    **Sec. 82.**    Sections 1 through 6, 8 through 77, and 79  
2 of this act shall take effect July 1, 1994.

3        NEW SECTION.    **Sec. 83.**    The legislature finds that recreational  
4 fishing opportunities for salmon and marine bottomfish have been  
5 dwindling in recent years.    It is important to restore diminished  
6 recreational fisheries and to enhance the salmon and marine bottomfish  
7 resource to assure sustained productivity.    Investments made in  
8 recreational fishing programs will repay the people of the state many  
9 times over in increased economic activity and in an improved quality of  
10 life.

11       NEW SECTION.    **Sec. 84.**    There is created a new position in the  
12 department subject to the civil service law, chapter 41.06 RCW, to be  
13 known as the sport fishing program administrator.    The sport fishing  
14 program administrator shall be an advocate for increasing recreational  
15 salmon and marine bottomfish harvesting opportunities through programs  
16 specifically designed to improve recreational fishing in south Puget  
17 Sound, central Puget Sound, north Puget Sound, Hood Canal, and Lake  
18 Washington.

19       NEW SECTION.    **Sec. 85.**    The duties of the sport fishing program  
20 administrator are to use resources within the department to:    Develop  
21 a short-term program of hatchery-based salmon enhancement using  
22 freshwater pond sites for the final rearing phase; solicit support from  
23 cooperative projects, regional enhancement groups, and other supporting  
24 organizations; conduct comprehensive research on resident and migratory  
25 salmon production opportunities; and conduct research on marine  
26 bottomfish production limitations and on methods for artificial  
27 propagation of marine bottomfish.

28       Long-term duties of the sport fishing program administrator are to:  
29 Fully implement enhancement efforts for Puget Sound and Hood Canal  
30 resident salmon and marine bottomfish; identify opportunities to  
31 reestablish salmon runs into areas where they no longer exist;  
32 encourage naturally spawning salmon populations to develop to their  
33 fullest extent; and fully utilize hatchery programs to improve  
34 recreational fishing.

1        NEW SECTION.    **Sec. 86.**    The department shall seek recommendations  
2 from persons who are expert on the planning and operation of programs  
3 for enhancement of recreational fisheries. The department shall fully  
4 use the expertise of the University of Washington college of fisheries  
5 and the sea grant program to develop research and enhancement programs.

6        NEW SECTION.    **Sec. 87.**    The department shall develop new locations  
7 for the freshwater rearing of delayed-release chinook salmon. In  
8 calendar year 1994, at least one freshwater pond chinook salmon rearing  
9 site shall be developed and begin production in each of the following  
10 areas: South Puget Sound, central Puget Sound, north Puget Sound, and  
11 Hood Canal. Natural or artificial pond sites shall be preferred to net  
12 pens due to higher survival rates experienced from pond rearing.  
13 Rigorous predatory bird control measures shall be implemented. The  
14 goal of the program is to increase the production and planting of  
15 delayed release chinook salmon to a level of three million fish  
16 annually by the year 2000.

17        NEW SECTION.    **Sec. 88.**    The department shall conduct research,  
18 develop methods, and implement programs for the artificial rearing and  
19 release of marine bottomfish species. Lingcod, halibut, rockfish, and  
20 Pacific cod shall be the species of primary emphasis due to their  
21 importance in the recreational fishery.

22        NEW SECTION.    **Sec. 89.**    The department shall undertake additional  
23 research to more fully evaluate improved enhancement techniques,  
24 hooking mortality rates, methods of mass marking, improvement of catch  
25 models, and sources of marine bottomfish mortality. Research shall be  
26 designed to give the best opportunity to provide information that can  
27 be applied to real-world recreational fishing needs.

28        NEW SECTION.    **Sec. 90.**    The department shall work with the  
29 department of ecology, the department of wildlife, and local government  
30 entities to streamline the siting process for new enhancement projects.  
31 The department is encouraged to work with the legislature to develop  
32 statutory changes that enable expeditious processing and granting of  
33 permits for fish enhancement projects.

1        NEW SECTION.    **Sec. 91.** The department's information and education  
2 section shall develop a public awareness program designed to educate  
3 the public on the elements of the recreational fishing program and to  
4 recruit volunteers to assist the department in implementing  
5 recreational fishing projects. Economic benefits of the program shall  
6 be emphasized.

7        NEW SECTION.    **Sec. 92.** The department shall increase efforts to  
8 document the effects of bird predators, harbor seals, sea lions, and  
9 predatory fish upon the salmon and marine fish resource. Every  
10 opportunity shall be explored to convince the federal government to  
11 amend the marine mammal protection act to allow for lethal removal of  
12 predatory marine mammals, as well as to work with the United States  
13 fish and wildlife service to achieve workable control measures for  
14 predatory birds.

15        NEW SECTION.    **Sec. 93.** Indian tribal fishing interests and non-  
16 Indian commercial fishing groups shall be invited to participate in  
17 development of plans for selective fisheries that target hatchery-  
18 produced fish and minimize catch of naturally spawned fish. In  
19 addition, talks shall be initiated on the feasibility of altering the  
20 rearing programs of department hatcheries to achieve higher survival  
21 and greater production of chinook and coho salmon.

22        NEW SECTION.    **Sec. 94.** The department shall coordinate the sport  
23 fishing program with the wild stock initiative to assure that the two  
24 programs are compatible and potential conflicts are avoided.

25        NEW SECTION.    **Sec. 95.** The department shall develop plans for  
26 increased recreational access to salmon and marine fish resources.  
27 Proposals for new boat launching ramps and pier fishing access shall be  
28 developed.

29        NEW SECTION.    **Sec. 96.** The department shall contract with private  
30 consultants, aquatic farms, or construction firms, where appropriate,  
31 to achieve the highest benefit-to-cost ratio for recreational fishing  
32 projects.

1        NEW SECTION.    **Sec. 97.**    The requirements and provisions of this  
2 chapter are to be performed in addition to and not at the expense of  
3 existing salmon programs of the department.  Nothing in this chapter  
4 shall be construed to authorize the department to advocate or to  
5 improve recreational fishing at the expense of commercial fishing or to  
6 increase recreational enhancement to the detriment of commercial  
7 enhancement.

8        NEW SECTION.    **Sec. 98.**    Beginning January 1, 1994, persons who  
9 recreationally fish for salmon or marine bottomfish in marine area  
10 codes 5 through 13 shall be assessed an annual recreational surcharge  
11 of ten dollars, in addition to other licensing requirements.  Funds  
12 from the surcharge shall be deposited in the recreational fisheries  
13 enhancement account created in section 99 of this act, except that the  
14 first five hundred thousand dollars shall be deposited in the general  
15 fund before June 30, 1995, to repay the appropriation made by section  
16 102, chapter . . . . ., Laws of 1993 (section 102 of this act).

17        NEW SECTION.    **Sec. 99.**    The recreational fisheries enhancement  
18 account is created in the state treasury.  All receipts from section 98  
19 of this act shall be deposited into the account.  Moneys in the account  
20 may be spent only after appropriation.  Expenditures from the account  
21 may be used only for recreational fisheries enhancement programs.

22        NEW SECTION.    **Sec. 100.**    The department shall develop and present  
23 to the legislature, no later than January 1, 1994, proposed legislation  
24 for a recreational fishing capital facilities improvement program  
25 financed through general obligation bonds.

26        NEW SECTION.    **Sec. 101.**    Sections 84 through 99 of this act shall  
27 constitute a new chapter in Title 75 RCW.

28        NEW SECTION.    **Sec. 102.**    The sum of five hundred thousand dollars,  
29 or as much thereof as may be necessary, is appropriated for the  
30 biennium ending June 30, 1995, from the general fund to the  
31 recreational fisheries enhancement account created in section 99 of  
32 this act for the purpose of achieving early implementation of this act.  
33 Funds appropriated by this section shall be repaid to the general fund

1 from the proceeds of the surcharge established in section 98 of this  
2 act. Repayment shall occur before June 30, 1995.

3 NEW SECTION. **Sec. 103.** Sections 83 through 102 of this act are  
4 necessary for the immediate preservation of the public peace, health,  
5 or safety, or support of the state government and its existing public  
6 institutions, and shall take effect July 1, 1993.
