Background: Article VII, Section 2, of the state constitution, limits the cumulative rate of regular property taxes that may be imposed on any property in any year to an amount not exceeding 1 percent of the true and fair value of the property. Excess property tax levies may be imposed above the 1 percent limitation.

The following two regular property tax levies are not subject to these statutory cumulative rate limitations: (1) Voter approved regular property taxes of up to 50 cents per \$1,000 of assessed valuation for emergency medical service purposes may be imposed by a number of different taxing districts; and (2) regular property taxes of up to 6.25 cents per \$1,000 of assessed valuation may be imposed by counties to acquire conservation futures.

Summary of Bill: The maximum rate of property taxes that a county may impose to acquire conservation futures is

increased from 6.25 cents per \$1,000 of assessed valuation to 10 cents per \$1,000 of assessed valuation.

Fiscal Note: Not requested.

Effective Date: Ninety days after adjournment of session in which bill is passed.

Testimony For: People support these taxes. In rapidly growing areas land values increase rapidly so you need to acquire necessary conservation areas as early as possible.

Testimony Against: None.

Witnesses: (Pro): Bill Dysert, citizen; Del Schleichert, Clark County Parks and Recreation Manager; and Vern Vegsey, citizen.
