BACKGROUND:

Prior to 1993, hunting and game fish licenses were administered by the Department of Wildlife, and food fish and shellfish licenses were administered by the Department of Fisheries. With the merger of those two departments, all licenses will be administered by the Department of Fish and Wildlife. Consolidating the license categories into a single form is considered by the department to be more efficient and user friendly.

SUMMARY:

Existing license provisions are amended to develop consistency between requirements for shellfish, food fish, game fish, and hunting licenses. The senior personal use food fish license fees are set at \$3. A non-resident game fish license fee of \$20 is established for juveniles. The time period for a temporary license for food fish and shellfish is expanded from two days to three days. Uniform residency requirements,

expiration dates, and veteran and disability exemptions are established for all licenses.

Fees for a personal use food fish license are increased by \$1 to include the regional fisheries enhancement group surcharge.

Seaweed is added to the shellfish license to comply with provisions of SB 5980, adopted into law in 1993.

The director is authorized to establish by rule the conditions for issuance of duplicate licenses, permits, tags, stamps and catch record cards. The fee for a duplicate license is set at \$10 for licenses that are \$10 and over, and for licenses under \$10, the duplicate fee is the value of the license.

The effective date of the act is January 1, 1995. Licenses issued by either department in 1994 will be valid until their stated expiration date.

EFFECT OF PROPOSED SUBSTITUTE:

A sport recreational license is created to include the personal use food fish, game fish, hunting, hound and eastern Washington upland bird licenses.

Crawfish are removed from shellfish permit requirements.
