BACKGROUND:

Under current law, the Public Employee Benefits Board is composed of seven members: three from active and retired state employee groups, three with experience in health benefit management and cost containment, and the administrator of the state Health Care Authority. The board is charged, among other things, with designing the benefits and determining the terms and conditions of employee participation and coverage for public employee health benefit plans.

Currently the Public Employee Benefits Board exercises control over some state funded school district health benefit plans as well. Under current law, by July 1995, all state funded school district employee health benefits must be determined by the Public Employee Benefits Board in a manner consistent with state law. The board is presently working with the Health Care Authority administrator and others to plan for this transition.

Under current law, the board will expand to nine in July 1995, adding two school employee representatives and one additional person with experience in health benefit management and cost containment. At that time, one state employee representative will be removed from the board.

Some have suggested this change in composition should be accomplished immediately in order to provide for more formal participation by school district employees in planning the transition.

SUMMARY:

Effective immediately, the Public Employee Benefits Board is expanded from seven to nine members by removing one state employee representative, adding two school district employee representatives, one of who must be retired, and by adding one additional person with experience in health benefit management and cost containment.
