5 On page 2, line 23, after "licensure" insert ", however, other  
6 additional repairs, remodeling, or replacement projects that are not  
7 related to one or more deficiency citations and are not necessary to  
8 maintain state licensure are not exempt from certificate of need review  
9 except as otherwise permitted by (d)(vi) of this subsection or RCW  
10 70.38.115(13)"

11 On page 2, line 27, after "renovation" insert "at an existing  
12 nursing home"

13 EFFECT: Clarifies that the certificate of need exemption provision  
14 applies to only those projects that are needed to maintain state  
15 licensure and then only to the extent that the project would accomplish  
16 that purpose. Additional renovations or repairs beyond those necessary  
17 for licensure under this provision would not be allowed. Clarifies  
18 that renovations are exempt only if being made at an existing rather  
19 than a planned facility.
