5 Strike everything after the enacting clause and insert the
6 following:

7 "NEW SECTION. **Sec. 1.** The legislature finds that since its
8 creation in 1985, the Puget Sound water quality authority has been
9 largely successful in adopting a comprehensive management plan for the
10 restoration and long-term protection of Puget Sound, which is the
11 principal guiding document for the coordination and strengthening of
12 programs by local governments, the private sector, and federal and
13 state agencies. The authority has continually revised the plan to
14 reflect new information regarding the water quality and other
15 environmental conditions of Puget Sound, and to respond to changing
16 state and federal funding and programmatic requirements. The
17 legislature finds that increased emphasis should now be placed upon
18 implementing the plan, upon assisting those primarily responsible for
19 implementing the plan, upon the long-term monitoring of Puget Sound's
20 environmental conditions, and upon measuring progress in the overall
21 implementation of the management plan.

22 **Sec. 2.** RCW 90.70.001 and 1985 c 451 s 1 are each amended to read
23 as follows:

24 The legislature finds that Puget Sound and related inland marine
25 waterways of Washington state represent a unique and unparalleled
26 resource. A rich and varied range of marine organisms, composing an
27 interdependent, sensitive communal ecosystem reside in these sheltered
28 waters. Residents of this region enjoy a way of life centered around
29 the waters of Puget Sound, featuring accessible recreational
30 opportunities, world-class port facilities and water transportation
31 systems, harvest of marine food resources, shoreline-oriented life
32 styles, water-dependent industries, tourism, irreplaceable aesthetics
33 and other activities, all of which to some degree depend upon a clean
34 and healthy marine resource.

35 ~~((The legislature further finds that the consequences of careless~~
36 ~~husbanding of this resource have been dramatically illustrated in~~

1 inland waterways associated with older and more extensively developed
2 areas of the nation. Recent reports concerning degradation of water
3 quality within this region's urban embayments raise alarming
4 possibilities of similar despoliation of Puget Sound and other state
5 waterways. These examples emphasize that the costs of restoration of
6 aquatic resources, where such restoration is possible, greatly exceed
7 the costs of responsible preservation.))

8 The legislature declares that utilization of the Puget Sound
9 resource carries a custodial obligation for preserving it. The people
10 of the state have the unique opportunity to preserve this gift of
11 nature, an understanding of the results of inattentive stewardship, the
12 technical knowledge needed for control of degradation of Puget Sound,
13 and the obligation to undertake such control.

14 The legislature further finds that the large number of governmental
15 entities that now affect the ((~~water quality~~)) health of Puget Sound
16 have diverse interests and limited jurisdictions which cannot
17 adequately address the cumulative, wide-ranging impacts which
18 contribute to the degradation of Puget Sound. In accordance with the
19 purpose of chapter 403, Laws of 1995, the regulatory reform act of
20 1995, governments at all levels should better coordinate their efforts
21 to avoid confusing and frustrating the public with overlapping or
22 contradictory requirements. Greater water quality protection in Puget
23 Sound can be achieved by establishing a cooperative partnership between
24 public and private entities and state agencies that emphasizes
25 technical assistance, education, incentives, and dispute resolution.
26 It is therefore the policy of the state of Washington to create a
27 single entity with adequate resources to develop and maintain a
28 comprehensive plan for water quality protection in Puget Sound ((~~to be~~
29 ~~implemented by existing state and local government agencies~~)) and to
30 assist state and local governments, citizens, and the private sector in
31 implementing that plan.

32 **Sec. 3.** RCW 90.70.011 and 1990 c 115 s 2 are each amended to read
33 as follows:

34 (1) There is established the Puget Sound water quality authority
35 composed of eleven members. Nine members shall be appointed by the
36 governor and confirmed by the senate. In addition, the commissioner of
37 public lands or the commissioner's designee and the director of ecology
38 or the director's designee shall serve as ex officio members. Three of

1 the members shall include a representative from the counties, a
2 representative from the cities, and a tribal representative. The
3 director of ecology shall be chair of the authority. In making these
4 appointments, the governor shall seek to include representation of the
5 variety of interested parties concerned about Puget Sound water
6 quality, including representation from the business and environmental
7 communities. Appointments shall reflect the geographic balance and
8 diversity of population within the Puget Sound basin. (~~Of the~~
9 ~~appointed members, at least one shall be selected from each of the six~~
