12 percent" and insert "~~((five and six-tenths))~~ a rate that is two-
13 tenths percent above the maximum rate in effect"

EFFECT: Increases the maximum rate for unemployment insurance contributions made by employers. The current maximum rate of 5.4 percent of taxable payroll is increased to 5.8 percent for schedule A, and each succeeding tax schedule is correspondingly increased by 0.4 percent, up to 7.8 percent for schedule F. Each rate schedule is made revenue neutral by reducing the rates in the lower rate classes. The delinquent employer tax rates are changed to correspond with the new maximum rates.
