5 Strike everything after the enacting clause and insert the
6 following:

7 NEW SECTION. **Sec. 1.** The legislature finds that initial
8 construction of a marina and some maintenance activities change the
9 natural flow or bed of the salt or fresh water body in which the marina
10 is constructed. Because of this disturbance, it is appropriate that
11 plans for initial marina construction as well as some maintenance
12 activities undergo the hydraulic project review and approval process
13 established in chapter 75.20 RCW.

14 It is the intent of the legislature that after a marina has
15 received a hydraulic project approval and been constructed, a
16 renewable, five-year hydraulic project approval be issued, upon
17 request, for regular maintenance activities within the marina.

18 NEW SECTION. **Sec. 2.** A new section is added to chapter 75.20 RCW
19 to read as follows:

20 (1) "Marina" means a public or private facility providing boat
21 moorage space, fuel, or commercial services. Commercial services
22 include but are not limited to overnight or live-aboard boating
23 accommodations.

24 (2) For a marina in existence on the effective date of this act or
25 a marina that has received a hydraulic project approval for its initial
26 construction, a renewable, five-year hydraulic project approval shall
27 be issued, upon request, for regular maintenance activities of the
28 marina.

29 (3) Upon construction of a new marina that has received hydraulic
30 project approval, a renewable, five-year hydraulic project approval
31 shall be issued, upon request, for regular maintenance activities of
32 the marina.

33 (4) For the purposes of this section, regular maintenance
34 activities are only those activities necessary to restore the marina to
35 the conditions approved in the initial hydraulic project approval.

1 These activities may include, but are not limited to, dredging, piling
2 replacement, and float replacement.

3 (5) The five-year permit must include a requirement that a
4 fourteen-day notice be given to the department before regular
5 maintenance activities begin."
