Background: Currently, LEOFF II members with 10 or more years of service who leave employment before reaching retirement age or retire under disability, may choose an annuity benefit at age 55 or can request a 150 percent refund of their accumulated contributions.

In the case of the death of a member with 10 or more years of service, the member's surviving beneficiary may elect to receive an annuity or a refund of the member's accumulated retirement contributions; however, the beneficiary may only receive 100 percent of the accumulated contribution.

A LEOFF Plan II member who leaves employment and withdraws contributions and later rejoins active service may replace any withdrawn contributions plus interest within 5 years. After the 5-year deadline, members can restore withdrawn contributions at the full actuarial value of the increased benefit.

Summary of Bill: The death benefits provisions are changed to allow a surviving spouse or eligible children of a LEOFF member who dies with either 10 years of service or retirement eligibility, to receive a 150 percent refund on accumulated contributions. To qualify for the increased refund, the death of the member must have occurred on or after July 25, 1993.

Any accumulated contributions attributable to restorations made after 5 years will be refunded at 100 percent.

Fiscal Note: Available.

Effective Date of Bill: The bill contains an emergency clause and takes effect immediately.

Testimony For: This bill would make a needed correction to a law passed 2 years ago.
