

1 **SHB 2848 - H AMDS 843**

2 By Representative Cole

3 On page 6, line 29, after the student.- strike all material
4 through assessment.- on line 33.

5 On page 6, line 36, after proficiency- strike all material
6 through taken- on line 37.

EFFECT: A student who has passed a subject matter assessment will not be explicitly permitted to retake it in order to improve a passing score. The reference to the student retaking the assessment at the student's own expense is also removed. In addition, a student's transcript will indicate whether the student has met the requirements for a certificate of academic proficiency, but the transcript will not include the highest score attained in each content area or the dates when the assessments were taken.
