2 per case mix unit, the facility average case mix score will be based on
3 the case mix of all residents. For purposes of determining the
4 facility's payment rate, the facility average case mix score shall be
5 based on the case mix of medicaid residents.

6 (iii) The direct care rates shall be adjusted prospectively each
7 quarter based on the facility's MDS 2.0 data from the quarter
8 commencing six months preceding the rate effective date. For example,
9 the MDSs for 1/1/97 - 3/31/97 shall be used to establish shadow rates
10 for 7/1/97 - 9/30/97.

11 (iv) Those costs which currently comprise nursing services as
12 defined by chapter 74.46 RCW, excluding therapies, shall be included in

14 (v) Data from 1994 cost reports (allowable and audited costs) shall

18 (vi) Separate prices, ceilings, and corridors shall be established
19 for the peer groups of metropolitan statistical area and
20 nonmetropolitan statistical area.

21 (b) The following methods shall be used to establish the shadow
22 case mix rates:

23 (i) A pricing system in which payment to a facility shall be based
24 on a price multiplied by each facility's medicaid case mix. The price,
25 per peer group, shall be established at the median direct care cost per
26 case mix unit.

27 (ii) A pricing system in which payment to a facility shall be based
28 on a price multiplied by each facility's medicaid case mix. The price,
29 per peer group, shall be based on the cost per case-mix unit of a group
30 of cost-effective benchmark facilities which meet quality standards.

31 (iii) A corridor-based system in which payment to a facility shall
32 be the facility's allowable cost per case-mix unit adjusted for case
33 mix up to a ceiling and no less than a floor. The floor, per peer
34 group, shall be established at 90 percent of the cost per case-mix unit
35 of a group of cost-effective benchmark facilities which meet quality
36 standards. The ceiling, per peer group, shall be established at 110
37 percent of the cost per case-mix unit of the group of benchmark
38 facilities.

1 (iv) A corridor-based system in which payment to a facility shall
2 be the facility's allowable cost per case-mix unit adjusted for case
3 mix up to a ceiling and no less than a floor. The floor, per peer
4 group, shall be established at 90 percent of the industry-wide median
5 direct care cost per case-mix unit. The ceiling, per peer group, shall
6 be established at 110 percent of the industry-wide median direct care
7 cost per case-mix unit.

8 (c) The department shall provide all data, information, and
9 specifications of the methods used in establishing the shadow case mix
10 rates to the nursing home provider associations.

11 (d) It is the legislature's intent that the average state payment
12 for nursing facility services under the new system increase by no more
13 than 175 percent of the health care financing administration nursing
14 home input price index, excluding capital costs. In designing the new
15 payment system, the department shall develop and propose options for
16 the combined direct and indirect rate components that assure this.

18 year 1998 and \$50,000 of the general fund--state appropriation for

39 full-time equivalent students in grades 4-12;

1 (b) For school districts with a minimum enrollment of 250 full-time
2 equivalent students whose full-time equivalent student enrollment count
3 in a given month exceeds the first of the month full-time equivalent
4 enrollment count by 5 percent, an additional state allocation of 110

22 public instruction, to vocational-secondary programs shall not exceed
23 10 percent; and

28 enrollment for students eligible for basic support.

29 (d) For districts enrolling not more than twenty-five average
30 annual full-time equivalent students in grades K-8, and for small

32 administrative staff units per each additional forty-three and one-half
33 average annual full time equivalent students.

34 Units calculated under (f)(ii) of this subsection shall be reduced

36 instructional staff units and four certificated administrative staff
37 units per thousand vocational full-time equivalent students.

38 (g) For each nonhigh school district having an enrollment of more
39 than seventy annual average full-time equivalent students and less than

1 one hundred eighty students, operating a grades K-8 program or a grades
2 1-8 program, an additional one-half of a certificated instructional
3 staff unit; and

4 (h) For each nonhigh school district having an enrollment of more
5 than fifty annual average full-time equivalent students and less than
6 one hundred eighty students, operating a grades K-6 program or a grades

8 staff unit.

9 (3) Allocations for classified salaries for the 1997-98 and 1998-99
10 school years shall be calculated using formula-generated classified
11 staff units determined as follows:

13 under subsection (2) (d) through (h) of this section, one classified
14 staff unit for each three certificated staff units allocated under such
15 subsections;

16 (b) For all other enrollment in grades K-12, including vocational
17 full-time equivalent enrollments, one classified staff unit for each

33 (2) of this section; and

34 (b) The number of classified staff units determined in subsection
35 (3) of this section multiplied by 1.152. This factor is intended to
36 adjust allocations so that, for the purposes of distributing insurance
37 benefits, full-time equivalent classified employees may be calculated
38 on the basis of 1440 hours of work per year, with no individual
39 employee counted as more than one full-time equivalent.

1 (6)(a) For nonemployee-related costs associated with each
2 certificated staff unit allocated under subsection (2) (a), (b), and

14 teachers exclusive of salary increase amounts provided in section 504
15 of this act. Solely for the purposes of this subsection, allocated
16 classroom teachers shall be equal to the number of certificated
17 instructional staff units allocated under subsection (2) of this
18 section, multiplied by the ratio between the number of actual basic

23 superintendent of public instruction by submission of a resolution
24 adopted in a public meeting to reduce or delay any portion of its basic
25 education allocation for any school year. The superintendent of public
26 instruction shall approve such reduction or delay if it does not impair
27 the district's financial condition. Any delay shall not be for more
28 than two school years. Any reduction or delay shall have no impact on
29 levy authority pursuant to RCW 84.52.0531 and local effort assistance
30 pursuant to chapter 28A.500 RCW.

5 enrolled in extended day school-to-work programs, as approved by the
6 superintendent of public instruction. The funds shall be allocated at
7 a rate not to exceed \$500 per full-time equivalent student enrolled in
8 those programs.

9 (10) For the purposes of RCW 84.52.0531, the increase per full-time
10 equivalent student in state basic education appropriations provided
11 under this act, including appropriations for salary and benefits
12 increases, is 2.5 percent from the 1996-97 school year to the 1997-98
13 school year, and 1.1 percent from the 1997-98 school year to the
14 1998-99 school year.

11 NEW SECTION. **Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC**
12 **INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS**

13	General Fund--State Appropriation (FY 1998)	\$	370,486,000
14	General Fund--State Appropriation (FY 1999)	\$	374,327,000
15	General Fund--Federal Appropriation	\$	135,106,000
16	TOTAL APPROPRIATION	\$	879,919,000

17 The appropriations in this section are subject to the following
18 conditions and limitations:

19 (1) The appropriation for fiscal year 1998 includes such funds as
20 are necessary for the remaining months of the 1996-97 school year.

21 (2) The superintendent of public instruction shall distribute state
22 funds to school districts based on two categories, the optional birth
23 through age two program for special education eligible developmentally
24 delayed infants and toddlers, and the mandatory special education
25 program for special education eligible students ages three to twenty-
26 one. A "special education eligible student" means a student receiving
27 specially designed instruction in accordance with a properly formulated
28 individualized education program.

29 (3) For the 1997-98 and 1998-99 school years, the superintendent
30 shall distribute state funds to each district based on the sum of:

31 (a) A district's annual average headcount enrollment of
32 developmentally delayed infants and toddlers ages birth through two,
33 times the district's average basic education allocation per full-time
34 equivalent student, times 1.15; and

35 (b) A district's annual average full-time equivalent basic
36 education enrollment times the funded enrollment percent determined
37 pursuant to subsection (4)(c) of this section, times the district's

1 average basic education allocation per full-time equivalent student
2 times 0.9309.

3 (4) The definitions in this subsection apply throughout this
4 section.

5 (a) "Average basic education allocation per full-time equivalent
6 student" for a district shall be based on the staffing ratios required
7 by RCW 28A.150.260 (i.e., 49/1000 certificated instructional staff in
8 grades K-3, and 46/1000 in grades 4-12) and shall not include
9 enhancements for K-3, secondary vocational education, or small schools.

10 (b) "Annual average full-time equivalent basic education
11 enrollment" means the resident enrollment including students enrolled
12 through choice (RCW 28A.225.225) and students from nonhigh districts
13 (RCW 28A.225.210) and excluding students residing in another district
14 enrolled as part of an interdistrict cooperative program (RCW
15 28A.225.250).

16 (c) "Enrollment percent" means the district's resident special
17 education annual average enrollment including those students counted
18 under the special education demonstration projects, excluding the birth
19 through age two enrollment, as a percent of the district's annual
20 average full-time equivalent basic education enrollment. For the 1997-
21 98 and the 1998-99 school years, each district's funded enrollment
22 percent shall be:

23 (i) For districts whose enrollment percent for 1994-95 was at or
24 below 12.7 percent, the lesser of the district's actual enrollment
25 percent for the school year for which the allocation is being
26 determined or 12.7 percent.

27 (ii) For districts whose enrollment percent for 1994-95 was above
28 12.7 percent, the lesser of:

29 (A) The district's actual enrollment percent for the school year
30 for which the special education allocation is being determined; or

31 (B) The district's actual enrollment percent for the school year
32 immediately prior to the school year for which the special education
33 allocation is being determined if greater than 12.7 percent; or

34 (C) For 1997-98, the 1994-95 enrollment percent reduced by 75
35 percent of the difference between the district's 1994-95 enrollment
36 percent and 12.7 percent and for 1998-99, 12.7 percent.

37 (5) At the request of any interdistrict cooperative of at least 15
38 districts in which all excess cost services for special education
39 students of the districts are provided by the cooperative, the maximum

1 enrollment percent shall be 12.7, and shall be calculated in the
2 aggregate rather than individual district units. For purposes of this
3 subsection (4) of this section, the average basic education allocation
4 per full-time equivalent student shall be calculated in the aggregate
5 rather than individual district units.

6 (6) A maximum of \$12,000,000 of the general fund--state
7 appropriation for fiscal year 1998 and a maximum of \$12,000,000 of the
8 general fund--state appropriation for fiscal year 1999 are provided as
9 safety net funding for districts with demonstrated needs for state
10 special education funding beyond the amounts provided in subsection (3)
11 of this section. Safety net funding shall be awarded by the state
12 safety net oversight committee.

13 (a) The safety net oversight committee shall first consider the
14 needs of districts adversely affected by the 1995 change in the special
15 education funding formula. Awards shall be based on the amount
16 required to maintain the 1994-95 state special education excess cost
17 allocation to the school district in aggregate or on a dollar per
18 funded student basis.

19 (b) The committee shall then consider unusual needs of districts
20 due to a special education population which differs significantly from
21 the assumptions of the state funding formula. Awards shall be made to
22 districts that convincingly demonstrate need due to the concentration
23 and/or severity of disabilities in the district. Differences in
24 program costs attributable to district philosophy or service delivery
25 style are not a basis for safety net awards.

26 (7) Prior to June 1st of each year, the superintendent shall make
27 available to each school district from available data the district's
28 maximum funded enrollment percent for the coming school year.

29 (8) The superintendent of public instruction may adopt such rules
30 and procedures as are necessary to administer the special education
31 funding and safety net award process. Prior to revising any standards,
32 procedures, or rules in place for the 1996-97 school year, the
33 superintendent shall consult with the office of financial management
34 and the fiscal committees of the legislature.

35 (9) The safety net oversight committee appointed by the
36 superintendent of public instruction shall consist of:

- 37 (a) Staff of the office of superintendent of public instruction;
- 38 (b) Staff of the office of the state auditor;
- 39 (c) Staff from the office of the financial management; and

1 (d) One or more representatives from school districts or
2 educational service districts knowledgeable of special education
3 programs and funding.

4 (10) A maximum of \$4,500,000 of the general fund--federal
5 appropriation shall be expended for safety net funding to meet the
6 extraordinary needs of one or more individual special education
7 students.

8 (11) A maximum of \$678,000 may be expended from the general fund--
9 state appropriations to fund 5.43 full-time equivalent teachers and 2.1
10 full-time equivalent aides at children's orthopedic hospital and
11 medical center. This amount is in lieu of money provided through the
12 home and hospital allocation and the special education program.

13 (12) A maximum of \$1,000,000 of the general fund--federal
14 appropriation is provided for projects to provide special education
15 students with appropriate job and independent living skills, including
16 work experience where possible, to facilitate their successful
17 transition out of the public school system. The funds provided by this
18 subsection shall be from federal discretionary grants.

19 (13) A school district may carry over up to 10 percent of general
20 fund--state funds allocated under this program; however, carry over
21 funds shall be expended in the special education program.

22 (14) Beginning in the 1997-98 school year, the superintendent shall
23 increase the percentage of federal flow-through to school districts to
24 at least 84 percent. In addition to other purposes, school districts
25 may use increased federal funds for high cost students, for purchasing
26 regional special education services from educational service districts,
27 and for staff development activities particularly relating to inclusion
28 issues.

29 (15) Up to one percent of the general fund--federal appropriation
30 shall be expended by the superintendent for projects related to use of
31 inclusion strategies by school districts for provision of special
32 education services. The superintendent shall prepare an information
33 database on laws, best practices, examples of programs, and recommended
34 resources. The information may be disseminated in a variety of ways,
35 including workshops and other staff development activities.

36 (16) Amounts appropriated within this section are sufficient to
37 fund section 5 of Second Substitute House Bill No. 1709 (mandate on
38 school districts).

However, an increase shall not be provided to any classified employee whose salary is above the approved salary range maximum for the class to which the employee's position is allocated. To collect consistent data for use by the legislature, the office of financial management, and other state agencies for policy and planning purposes, institutions of higher education shall report personnel data to be used in the department of personnel's human resource data warehouse in compliance with uniform reporting procedures established by the department of personnel.

10 shall not be included in an institution's salary base. It is the
11 intent of the legislature that general fund--state support for an
12 institution shall not increase during the current or any future
13 biennium as a result of any salary increases authorized under this
14 subsection (2)(c).

15 (d) Specific salary increases authorized in sections 603 through
16 609 of this act are in addition to any salary increase provided in this
17 subsection.

18 (3)(a) Each institution receiving appropriations under sections 604
19 through 609 of this act shall submit plans for achieving measurable and
20 specific improvements in academic years 1997-98 and 1998-99 to the

For students beginning as freshmen	95
For transfer students	90
(ii) Undergraduate student retention, defined as the percentage of all undergraduate students who return for the next year at the same institution, measured from fall to fall:	
Research universities	95%
Comprehensive universities and college	90%
(iii) Graduation rates, defined as the percentage of an entering freshmen class at each institution that graduates within five years:	
Research universities	65%
Comprehensive universities and college	55%

1 (iv) A measure of faculty productivity, with goals and targets in
2 accord with the legislative intent to achieve measurable and specific

4 board, in consultation with the institutions receiving appropriations
5 under sections 604 through 609 of this act.

6 (v) An additional measure and goal to be selected by the higher
7 education coordinating board for each institution, in consultation with

13 institution's baseline year and the state-wide performance goals shall
14 be calculated and shall be the performance gap for each institution for
15 each measure for each year. The plan for each institution shall set as
16 a performance target the closing of its performance gap for each

33 increasingly are being called upon to become more efficient in
34 conducting the business operations necessary to support the carrying
35 out of their academic missions. The legislature recognizes that state
36 laws and regulations may have the unintended effect of acting as
37

1 barriers to efficient operation in some instances, and desires to
 2 encourage the institutions of higher education to think beyond the
 3 constraints of current law in identifying opportunities for improved
 4 efficiency. Accordingly, the legislature requests that the
 5 institutions of higher education, working together through the council
 6 of presidents' office and the state board for community and technical
 7 colleges, identify opportunities for changes in state law that would
 8 form the basis for a new efficiency compact with the state, for
 9 consideration no later than the 1999 legislative session.
