ENGROSSED SUBSTITUTE HOUSE BILL 1111

Passed Legislature - 1997 Regular Session

AS AMENDED BY THE SENATE

State of Washington 55th Legislature 1997 Regular Session

By House Committee on Agriculture & Ecology (originally sponsored by Representatives Chandler, Koster, Delvin, Mulliken, Johnson, B. Thomas and Honeyford)

Read first time 02/12/97.

1 AN ACT Relating to granting water rights; and adding new sections
2 to chapter 90.03 RCW.

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

4 NEW SECTION. **Sec. 1.** (1) If a person placed surface or ground
5 water to beneficial use before January 1, 1993, for irrigation, stock
6 watering, or domestic use supplied by a public water supply system with
7 one hundred fifty or fewer service connections for which a permit or
8 certificate was not issued by the department or its predecessors, the
9 person or the public water supply system, or their respective
10 successors may continue to use water in the amount that has been
11 beneficially used as provided in subsection (3) of this section if:

12 (a) The person or the public water supply system files with the
13 department a statement of claim during the period beginning September
14 1, 1997, and ending midnight June 30, 1998, using the standard form
15 prescribed by RCW 90.14.051; and

16 (b) The person or public water supply system has applied the water
17 to beneficial use to the full extent stated in the statement of claim
18 during at least one of the five years preceding the date the statement
19 is filed and the person attests to having done so on the statement.

1 (2) The person or public water supply system must file with the
2 statement of claim evidence that the quantity of water described in the
3 claim was used beneficially before January 1, 1993, and during one of
4 the five years preceding the date the statement was filed in the form
5 of any two of the following:

6 (a) A statement signed by two persons other than the person filing
7 the statement of claim verifying that the claimant beneficially used
8 the water before January 1, 1993, and during one of the five years
9 preceding the date the statement was filed as described in the
10 statement of claim;

11 (b) A copy of a dated photograph clearly demonstrating the presence
12 of grass or a crop requiring irrigation in the amounts asserted in the
13 statement of claim or of livestock requiring water in such amounts; or
14 records of receipts of the sale of crops by the person or the person's
15 successor indicating that irrigation in the amount claimed was required
16 to produce the crops;

17 (c) Receipts or records of irrigation or stockwatering equipment
18 purchases or repairs associated with the water use specified in the
19 statement of claim;

20 (d) Water well construction records identifying the date the well
21 specified in the statement of claim as the point of withdrawal was
22 constructed;

23 (e) Records of electricity bills directly associated with the
24 withdrawal of water as specified in the statement of claim;

25 (f) Personal records such as photographs, journals, or
26 correspondence indicating the use of water as asserted in the statement
27 of claim.

28 (3) Public water supply systems must, in addition to the
29 requirements of subsection (2) of this section, provide evidence of
30 service connections existing and using water as of January 1, 1993,
31 including documentation that the homes were built and occupied.

32 NEW SECTION. **Sec. 2.** If the claimant has not already filed an
33 application for a water right under RCW 90.30.250 or 90.44.060 for the
34 water use stated in the statement of claim, the claimant shall file
35 such an application with the claimant's statement of claim. A claimant
36 who has filed both a statement of claim and an application for a water
37 right has standing to assert a claim of a water right in a general
38 adjudication under RCW 90.03.110 for the water use stated in the

1 statement of claim. The statement of claim shall be reviewed by the
2 court as provided in section 4 of this act.

3 NEW SECTION. **Sec. 3.** A person may continue to use water described
4 in the statement of claim until one of the following occurs:

5 (1) The department makes its final decision granting or denying the
6 water right application filed by the applicant as provided in section
7 2 of this act, following the completion and adoption of a locally
8 developed water resource watershed plan for the WRIA; or

9 (2) If the department has not made a final decision on the water
10 right application, a court of competent jurisdiction issues a decree
11 pursuant to a general adjudication under RCW 90.03.200 that defines or
12 denies the claimant's right to appropriate water as provided in section
13 4 of this act.

14 NEW SECTION. **Sec. 4.** The department or the court may authorize
15 the continued use of water under section 3 of this act only if the
16 claimant meets the requirements of RCW 90.03.247 through 90.03.330,
17 chapter 90.44 RCW, and RCW 90.54.020. If the department finds that the
18 applicable requirements are met, it shall grant the water right
19 application and issue a certificate under RCW 90.03.330 authorizing the
20 person to use that quantity of water that had been put to beneficial
21 use, not to exceed that quantity requested in the application or
22 documented in the statement of claim under section 1 of this act,
23 whichever is less. If in a general adjudication the court finds that
24 the requirements are met, it shall confirm such use of water in a
25 decree issued under RCW 90.03.200 and the department shall issue a
26 certificate under RCW 90.03.240. The court may not confirm a right in
27 excess of the quantity of water that was applied to beneficial use as
28 documented in the statement of claim under section 1 of this act or the
29 quantity requested in the application for a water right, whichever is
30 less. The priority date of any right issued by the department or
31 confirmed by a court shall be the date a water right application
32 authorizing the use of water was filed with the department.

33 NEW SECTION. **Sec. 5.** If the department or the court denies the
34 claimant's use of water under section 4 of this act, the claimant must
35 cease the use of the water. A decision by the department or a court
36 limiting or denying a claimant's right to continue using water does not

1 constitute a compensable taking under state or federal law because such
2 claimants have no continuing legal right to use water.

3 NEW SECTION. **Sec. 6.** Sections 1 through 8 of this act do not
4 apply to or authorize any use of water that was the subject of a water
5 right application filed with the department, where the department
6 denied such application.

7 NEW SECTION. **Sec. 7.** A continuing use of water authorized under
8 sections 1 through 8 of this act shall not affect or impair in any
9 respect whatsoever a water right existing before September 1, 1997.
10 Sections 1 through 8 of this act do not limit the ability of a senior
11 water right holder to take legal action against any other water user to
12 prevent impairment of his or her water right. A right granted under
13 sections 1 through 8 of this act may be junior in every respect to a
14 right with a more senior date of priority. Any right granted under
15 sections 1 through 8 of this act may only be exercised in a manner that
16 does not impair or interfere with a water right that is senior to it.
17 The filing of a statement of claim under this section does not
18 constitute an adjudication of any claim to the right to the use of
19 waters as between the claimant and the state, or as between one or more
20 water use claimants. A statement of claim filed under this section
21 shall be admissible in a general adjudication of water rights as prima
22 facie evidence of the times of use and the quantity of water the
23 claimant was withdrawing or diverting to the same extent as is provided
24 by RCW 90.14.081 for a statement of claim in the water rights claims
25 registry on the effective date of this section.

26 NEW SECTION. **Sec. 8.** This section does not apply to ground water
27 in an area that is, during the period established by section 1(2) of
28 this act, the subject of a general adjudication proceeding for water
29 rights in superior court under RCW 90.03.110 through 90.03.245 and the
30 proceeding applies to ground water rights. This section does not apply
31 to surface water in an area that is, during the period established by
32 section 1(2) of this act, the subject of a general adjudication
33 proceeding for water rights in superior court under RCW 90.03.110
34 through 90.03.245 and the proceeding applies to surface water rights.

1 NEW SECTION. **Sec. 9.** Sections 1 through 8 of this act do not
2 apply to rights embodied in a water right permit or certificate issued
3 by the department of ecology or its predecessors, a water right
4 represented by a claim in the water rights claims registry, created
5 under RCW 90.14.111, before September 1, 1997, or a water right
6 exempted from permit and application requirements by RCW 90.44.050.

7 NEW SECTION. **Sec. 10.** Sections 1 through 8 of this act do not
8 apply to claims for the use of water in a ground water area or subarea
9 for which a management program adopted by the department by rule and in
10 effect on the effective date of this section establishes acreage
11 expansion limitations for the use of ground water.

12 NEW SECTION. **Sec. 11.** Sections 1 through 10 of this act are each
13 added to chapter 90.03 RCW.
