
SENATE BILL 6006

State of Washington

55th Legislature

1997 Regular Session

By Senators Finkbeiner and Rossi

Read first time 02/25/97. Referred to Committee on Energy & Utilities.

1 AN ACT Relating to restructuring the electric utility industry; and
2 creating new sections.

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

4 NEW SECTION. **Sec. 1.** This act shall be known as the restructuring
5 the electric utility industry act of 1997.

6 NEW SECTION. **Sec. 2.** The legislature finds that there is a great
7 opportunity for all electricity consumers in Washington to benefit from
8 a more competitive electricity market that allows customers the choice
9 of their electricity supplier. The legislature further finds that
10 certain elements of the electricity market are already becoming
11 competitive, and that there are great risks to most consumers by
12 postponing the policy decisions that create more competition.
