Brief Title: Regulating public ownership of coal-fired thermal electric generating facilities.

HB 1975 - DIGEST

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that cities of the first class, public utility districts organized under chapter 54.08 RCW, and joint operating agencies organized under chapter 43.52 RCW, shall have the power and authority to participate and enter into agreements for the undivided ownership of a coal-fired thermal electric generating plant and facility placed in operation before July 1, 1975, including related common facilities, and for the planning, financing, acquisition, construction, operation, and maintenance of the plant and facility.
