Brief Title: Protecting groundwater aquifers near department of transportation rights of way.

HB 2337 - DIGEST

Directs the department of transportation to serve written notification of upcoming chemical treatments of noxious weeds within state right of way to those cities and counties having Group A water systems that serve a minimum of twenty thousand residences within their respective jurisdictions.

Urges local jurisdictions to submit to their regional department of transportation office, the documentation required by WAC 246-290-135 as well as the local jurisdiction's policy on the use of chemicals to control noxious weeds.
