Brief Title: Changing provisions relating to the harboring of at-risk youth.

HB 2812 - DIGEST

Declares an intent to use punitive measures to create a clear disincentive for predatory individuals intending to take advantage of at-risk youth. The legislature further intends that all persons be required to report the location of a runaway minor, but that those individuals who fail to make such a report because they wish to have the minor remain unlocated as a means of preying upon them be punished for their failure to report the child's location.
