Brief Title: Inspecting rebuilt salvage vehicles.

SB 5194 - DIGEST

(SEE ALSO PROPOSED 1ST SUB)

Provides that a "structural integrity inspection" means an inspection of a salvage vehicle, as authorized by the Washington state patrol, to ensure that the frame and other components integral to the structure of the vehicle have been reconstructed or repaired in a manner that meets automotive industry standards.

Provides that effective July 1, 1998, the department may not issue a certificate of ownership or registration for a salvage vehicle unless the vehicle has passed a structural integrity inspection.

Requires that, by January 1, 1998, the Washington state patrol shall present to the legislative transportation committee and the office of financial management a progress report on the implementation of the structural integrity inspection program.
