Brief Title: Creating a growth management infrastructure account to assist counties and cities in financing capital facilities.

SB 6371-S - DIGEST

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares that, whenever a comprehensive plan adopted by a county or city indicates that improvements or additions to state facilities are needed to implement the plan, at the next regular session of the legislature the state agency responsible for constructing or operating those facilities shall request that the legislature recommend to the public works board that the facility be funded from the growth management infrastructure account.

Revises funding for the growth management infrastructure account.
