Brief Title: Establishing the Washington state end-of-life care center.

**SB 6373 - DIGEST**

Intends for the mission of the end-of-life care center to be improvement of medical education regarding terminality; better public and patient understanding of advance directives and care options; and creation of a special educational, treatment, and outreach center for the palliative care of children.

Intends to establish the end-of-life care center as a public-private partnership, enabling the medical, legal, and insurance communities, as well as concerned citizens, business, and charitable organizations to become involved in developing a new model of terminality.
