Brief Title: Revising public water system fees.

SB 6646 - DIGEST

Declares that the department of health, pursuant to legislative directive in 1995, has provided a report that incorporates the findings and recommendations of the water supply advisory committee as to progress in meeting the objectives of the public health improvement plan, changes warranted by the recent congressional action reauthorizing the federal safe drinking water act, new approaches to providing services under the general principles of regulatory reform, and the adequacy and necessity of current and prospective funding. Revision of the operating permit fee is a recommendation of the committee.
