Brief Title: Regarding a petition to authorize federal block grant funds directly to school districts.

SJM 8029 - DIGEST

(AS OF SENATE 2ND READING 2/17/98)

Requests an adoption of the amendment that would consolidate a vast number of federal education programs and block grant funds for those programs directly to school districts in support of local control of education decisions, locally determined education priorities, reduced education bureaucracy and ultimately more money devoted to direct student services in our classrooms.
