5 On page 2, line 31 of the amendment, after "(4)" insert "A public
6 utility district that provides interconnection, using
7 telecommunications facilities, shall offer such interconnection on
8 terms and conditions that are fair, reasonable, and nondiscriminatory.
9 Such requirements shall include the obligation to provide direct or
10 indirect interconnection with the facilities and equipment of any
11 service provider on terms and conditions that are functionally and
12 economically equivalent to the interconnection provided to any other
13 service provider. If the commission determines, after notice and
14 comment, that a public utility district is not complying with such
15 obligation, the commission may establish the terms and conditions of
16 such interconnection.

17 (5)"

18 Renumber the remaining subsections consecutively and correct any
19 internal references accordingly.

20 On page 5, line 32 of the amendment, after "(4)" insert "A rural
21 port district that provides interconnection, using telecommunications
22 facilities, shall offer such interconnection on terms and conditions
23 that are fair, reasonable, and nondiscriminatory. Such requirements
24 shall include the obligation to provide direct or indirect
25 interconnection with the facilities and equipment of any service
26 provider on terms and conditions that are functionally and economically
27 equivalent to the interconnection provided to any other service
28 provider. If the commission determines, after notice and comment, that
29 a rural port district is not complying with such obligation, the
30 commission may establish the terms and conditions of such
31 interconnection.

32 (5)"

33 Renumber the remaining subsections consecutively and correct any
34 internal references accordingly.

EFFECT: Public utility districts and rural port districts must offer the same rates and conditions of interconnection to telecommunication facilities to all service providers.
