3 On page 3, line 7, after (4)- insert A public utility district
4 that provides interconnection, using telecommunication facilities,
5 shall offer such interconnection on terms and conditions that are fair,
6 reasonable, and nondiscriminatory. Such requirements shall include the
7 obligation to provide direct or indirect interconnection with the
8 facilities and equipment of any service provider on terms and
9 conditions that are functionally and economically equivalent to the
10 interconnection provided to any other service provider. If the
11 commission determines, after notice and comment, that a public utility
12 district is not complying with such obligation, the commission may
13 establish the terms and conditions of such interconnection.

14 (5)-

15 Renumber the remaining subsections consecutively and correct
16 internal references accordingly.

17 On page 5, line 28, after (4)- insert A rural port district that
18 provides interconnection, using telecommunication facilities, shall
19 offer such interconnection on terms and conditions that are fair,
20 reasonable, and nondiscriminatory. Such requirements shall include the
21 obligation to provide direct or indirect interconnection with the
22 facilities and equipment of any service provider on terms and
23 conditions that are functionally and economically equivalent to the
24 interconnection provided to any other service provider. If the
25 commission determines, after notice and comment, that a rural port
26 district is not complying with such obligation, the commission may
27 establish the terms and conditions of such interconnection.

28 (5)-

29 Renumber the remaining subsections consecutively and correct
30 internal references accordingly.

EFFECT: Public utility districts and rural port districts must offer the same rates and conditions of interconnection to telecommunication facilities to all service providers.
