33 (f) \$209,000 of the general fund--state appropriation for fiscal
34 year 2000, \$664,000 of the general fund--state appropriation for fiscal

18 The department must use a competitive process to determine the site of

35 hospitals. Funding for community residential capacity is sufficient to
36 move a biennium total of 48 patients out of the state hospitals at a
37 reasonable pace by June 30, 2001. The department shall manage the
38 intensity of services provided so that the average cost per day does
39 not exceed \$300 per person placed in this expanded community

1 residential capacity. The department shall report to the appropriate
2 committees of the legislature on progress towards implementing this
3 subsection after each calendar quarter. The legislature finds that, in
4 addition to the appropriations in this subsection for improvements in
5 services to persons with developmental disabilities who are committed
6 to the custody of the secretary under chapter 71.05 RCW, it is
7 necessary to study long-term treatment alternatives and their legal,
8 fiscal, and policy implications. Therefore, the department shall
9 provide a report to the ways and means committee of the senate and the
10 appropriations committee of the house of representatives by December 1,
11 2000, containing options and recommendations for secure treatment
12 programs. The report shall identify various treatment models that
13 could be implemented and various types and locations of secure
14 facilities, both state-owned and leased, in which programs could be
15 sited, together with the department's recommendations. The report
16 shall evaluate the potential for siting such programs on the grounds of
17 existing state residential habilitation centers. The report shall also
18 include analysis of advantages and disadvantages associated with
19 contracting for some or all of the new program options identified. The
20 report shall evaluate the options based on short-term and long-term
21 costs, client and community security, efficiency of coordination with
22 other service delivery systems, and how they address specific legal
23 issues. In developing this report, the department shall invite
24 participation by representatives of the Washington protection and
25 advocacy system (WPAS), and shall include in the report WPAS' position
26 on options and recommendations submitted by the department and any
27 additional recommendations made by WPAS. The legislature recognizes a
28 need to improve long-term services provided to individuals with
29 developmental disabilities who are undergoing involuntary treatment
30 under chapter 71.05 RCW. The legislature is committed to providing
31 resources necessary to address issues in the U.S. District Court case
32 of *Allen v. Western State Hospital*.

33 (j) \$500,000 of the general fund--state appropriation for fiscal
34 year 2001 and \$160,000 of the general fund--federal appropriation are

38 year 2001 and \$2,000,000 of the general fund--federal appropriation are

15 Substitute House Bill No. 1546 is not enacted by June 30, 1999, the
16 amounts provided in this subsection shall lapse.

17 (10) \$610,000 of the general fund--state appropriation for fiscal
18 year 2001 is provided solely for the implementation of Substitute House
19 Bill No. 2454 (family caregiver). If the bill is not enacted by June

23 year 2001, and \$139,000 of the general fund--federal appropriation are
24 provided solely for implementation of Substitute House Bill No. 2637
25 (background checks). If the bill is not enacted by June 30, 2000, the

8 The appropriations in this section are subject to the following
9 conditions and limitations:

10 (1) ((~~\$308,504,000~~)) \$279,702,000 of the general fund--state
11 appropriation for fiscal year 2000, ((~~\$293,144,000~~)) \$263,140,000 of
12 the general fund--state appropriation for fiscal year 2001,
13 ((~~\$1,133,782,000~~)) \$1,142,182,000 of the general fund--federal
14 appropriation, and ((~~\$28,402,000~~)) \$28,371,000 of the general fund--
15 local appropriation are provided solely for the WorkFirst program and
16 child support operations. WorkFirst expenditures include TANF grants,
17 diversion services, subsidized child care, employment and training,
18 other WorkFirst related services, allocated field services operating
19 costs, and allocated economic services program administrative costs.
20 Within the amounts provided in this subsection, the department shall:

21 (a) Continue to implement WorkFirst program improvements that are
22 designed to achieve progress against outcome measures specified in RCW
23 74.08A.410. Valid measures of job retention and wage progression shall
24 be developed and reported for families who leave assistance, measured
25 after 12 months, 24 months, and 36 months.

26 (b) Provide \$500,000 from the general fund--state appropriation for
27 fiscal year 2000 and \$500,000 from the general fund--state
28 appropriation for fiscal year 2001 for continuation of the WorkFirst
29 evaluation conducted by the joint legislative audit and review
30 committee.

31 (c) Provide \$1,400,000 of the general fund--federal appropriation
32 solely for after-school care for middle school youth as described in
33 House Bill No. 2530 (after-school care).

34 (d) Provide \$2,710,000 of the general fund--federal appropriation
35 solely for training and a technical assistance program for child care
36 providers seeking training to enable them to competently serve children
37 with special needs as described in House Bill No. 2869 (child care
38 provider training).

1 (e) Provide \$230,000, or as much thereof as may be necessary, to
2 the department of health to expand the vasectomy project to temporary
3 assistance for needy families clients and their partners until such
4 time as a federal family planning waiver is granted that will cover
5 these services.

6 (f) Report to the appropriate committees of the legislature, by
7 December 1, ((1999)) 2000, how the new federal child support incentive
8 system can be used to maximize federal incentive payments and to
9 support the greatest achievement of WorkFirst program goals. In the
10 event that the department earns federal child support incentive
11 payments in excess of amounts budgeted, the department shall use one-
12 half of those additional funds to offset general fund--state allotments
13 and one-half of those additional funds to improve child support
14 services.

15 (2) (((\$50,860,000)) \$43,638,000 of the general fund--state
16 appropriation for fiscal year 2000 and (((\$50,825,000)) \$44,156,000 of
17 the general fund--state appropriation for fiscal year 2001 are provided
18 solely for cash assistance and other services to recipients in the
19 general assistance--unemployable program. Within these amounts, the
20 department may expend funds for services that assist recipients to
21 reduce their dependence on public assistance, provided that
22 expenditures for these services and cash assistance do not exceed funds
23 provided. The department shall, by July 1, 2000, begin using federal
24 funds provided in subsection (1) of this section, as allowed by federal
25 rules, for the costs of providing income assistance to children with
26 court-appointed guardians and court-appointed custodians.

27 (3) (((\$8,752,000)) \$5,444,000 of the general fund--state
28 appropriation for fiscal year 2000 and (((\$8,752,000)) \$5,632,000 of the

34 state-wide welfare-to-work services.

35 Within amounts available in this section, the department shall
36 provide progress reports on the use of such contracting to the fiscal
37 committees of the legislature by September 1, 2000, and January 1,
38 2000. Each of these reports shall describe the number of current
39 contracts for temporary assistance for needy families (TANF) or

1 WorkFirst services that the department has with community social
2 service providers and a description of the services being provided
3 through each of those contracts.

4 (5) The legislature finds that, since the passage of the federal
5 personal responsibility and work opportunity act in 1997, Washington's
6 public assistance population has declined dramatically, and that the
7 currently appropriated level for the temporary assistance for needy
8 families program is sufficient for the 1999-01 biennium. The
9 legislature further finds that federal funding for the temporary
10 assistance for needy families program may decrease after the current
11 five-year block grant has expired. The legislature declares that at
12 least \$60,000,000 of the year-end balance in the federal TANF grant
13 shall be held in reserve by the office of financial management at the
14 close of the 1999-01 biennium.

39 with other factors to determine LI-DSH payments. The net profitability~~

7 similar populations in other states, and shall then work with concerned
8 provider and consumer groups to adapt those strategies to Washington's
9 service delivery system. The department shall work with its drug
10 utilization and education council to develop a therapeutic substitution
11 program for at least two classes of drugs. Under the therapeutic
12 substitution program, the council shall analyze pharmaco-economic
13 research on the costs and benefits of all drugs within the class, and
14 identify the most cost-effective drug or drugs within the class for
15 placement on the formulary. Other drugs within the class shall be
16 preauthorized when clinically indicated under criteria established by
17 the council. The department shall report to the appropriate committees
18 of the legislature by December 1, 2000, prior to implementing its

27 reimbursement when services are provided by a rural hospital that
28 either: (a) Has been certified by the health care financing
29 administration as a critical access hospital; or (b) meets the
30 geographic criteria for a critical access hospital and has no more than
31 twenty-five available beds, with not more than fifteen acute care beds
32 and ten swing beds. If cost-based reimbursement is considered, it is
33 as defined by the hospital's cost to charge ratio. Any additional
34 payments made by the medical assistance administration for the healthy
35 options program shall be no more than the additional amounts per
36 service paid under this section for other medical assistance programs.
37 By December 15, 2000, the department shall report on the overall
38 increase in case-mix adjusted rates resulting from the reimbursement
39 changes authorized in this subsection. If the overall case-mix

1 adjusted rate of increase resulting from the use of the reimbursement
2 methodology authorized in this subsection exceeds twice the federal
3 health care financing administration hospital marketbasket index, then
4 the department shall make recommendations as to how the rate of
5 increase can be controlled.

6 (15) \$290,000 of the general fund--state appropriation for fiscal

16 (17) In determining financial eligibility for medicaid-funded
17 services, the department is authorized to disregard recoveries of
18 Holocaust survivors of insurance proceeds or other assets, as defined
19 in RCW 48.104.030.

14 grades 9-12 but no more than twenty-five average annual full-time
15 equivalent students in grades K-12, four and one-half certificated
16 instructional staff units and one-quarter of a certificated

35 than fifty annual average full-time equivalent students and less than
36 one hundred eighty students, operating a grades K-6 program or a grades

8 (b) For all other enrollment in grades K-12, including vocational
9 full-time equivalent enrollments, one classified staff unit for each
10 sixty average annual full-time equivalent students; and

12 than fifty annual average full-time equivalent students and less than
13 one hundred eighty students, an additional one-half of a classified

17 the 2000-01 school year(~~(s)~~) for certificated salary allocations
18 provided under subsection (2) of this section, and a rate of (~~(15.75)~~)
19 15.56 percent in the 1999-00 school year and 15.82 percent in the 2000-

21 subsection (3) of this section.

22 (5) Insurance benefit allocations shall be calculated at the
23 maintenance rate specified in section 504(2) of this act, based on the
24 number of benefit units determined as follows:

25 (a) The number of certificated staff units determined in subsection
26 (2) of this section; and

27 (b) The number of classified staff units determined in subsection
28 (3) of this section multiplied by 1.152. This factor is intended to
29 adjust allocations so that, for the purposes of distributing insurance
30 benefits, full-time equivalent classified employees may be calculated
31 on the basis of 1440 hours of work per year, with no individual
32 employee counted as more than one full-time equivalent.

33 (6)(a) For nonemployee-related costs associated with each
34 certificated staff unit allocated under subsection (2)(a), (b), and (d)
35 through (h) of this section, there shall be provided a maximum of
36 \$8,117 per certificated staff unit in the 1999-00 school year and a

11 (7) Allocations for substitute costs for classroom teachers shall
12 be distributed at a maintenance rate of \$365.28 for the 1999-00 school
13 year and \$479.94 for the 2000-01 school year per allocated classroom
14 teachers exclusive of salary increase amounts provided in section 504
15 of this act. Solely for the purposes of this subsection, allocated
16 classroom teachers shall be equal to the number of certificated
17 instructional staff units allocated under subsection (2) of this
18 section, multiplied by the ratio between the number of actual basic
19 education certificated teachers and the number of actual basic
20 education certificated instructional staff reported state-wide for the
21 1998-99 school year.

22 (8) Any school district board of directors may petition the
23 superintendent of public instruction by submission of a resolution
24 adopted in a public meeting to reduce or delay any portion of its basic
25 education allocation for any school year. The superintendent of public
26 instruction shall approve such reduction or delay if it does not impair
27 the district's financial condition. Any delay shall not be for more
28 than two school years. Any reduction or delay shall have no impact on

31 (9) The superintendent may distribute a maximum of (~~(\$6,444,000)~~)
32 \$8,390,000 outside the basic education formula during fiscal years 2000
33 and 2001 as follows:

34 (a) For fire protection for school districts located in a fire
35 protection district as now or hereafter established pursuant to chapter
36 52.04 RCW, a maximum of \$457,000 may be expended in fiscal year 2000
37 and a maximum of (~~(\$466,000)~~) \$464,000 may be expended in fiscal year
38 2001;

1 (b) For summer vocational programs at skills centers, a maximum of
2 \$2,098,000 may be expended each fiscal year;

3 (c) A maximum of \$325,000 may be expended for school district
4 emergencies; ~~((and))~~

5 (d) A maximum of \$500,000 per fiscal year may be expended for
6 programs providing skills training for secondary students who are
7 enrolled in extended day school-to-work programs, as approved by the
8 superintendent of public instruction. The funds shall be allocated at
9 a rate not to exceed \$500 per full-time equivalent student enrolled in
10 those programs~~((-))~~; and

11 (e) A maximum of \$1,558,000 of the general fund--state
12 appropriation for fiscal year 2000 and \$390,000 of the general fund--
13 state appropriation for fiscal year 2001 are provided for the 1999-00
14 school year for districts which experience an enrollment decline in the
15 1999-00 school year from the 1998-99 school year of more than 4.5
16 percent in full-time equivalent enrollment or more than 300 full-time
17 equivalent students. The superintendent shall allocate funds to
18 eligible school districts for up to one-quarter of the enrollment loss
19 at the basic education unenhanced rate for the district. School
20 districts receiving small school factor bonus funds shall not be
21 eligible for enrollment decline funds to the extent that the district
22 has no state apportionment loss as a result of the enrollment decline.

23 (10) For purposes of RCW 84.52.0531, the increase per full-time
24 equivalent student in state basic education appropriations provided
25 under chapter 309, Laws of 1999, including appropriations for salary
26 and benefits increases, is 4.0 percent from the 1998-99 school to the

28 the 2000-01 school year. This subsection supersedes section 1, chapter
29 10, Laws of 1999 sp. sess.

32 to subsection (2)(b) through (h) of this section, the following shall
33 apply:

34 (a) For three school years following consolidation, the number of
35 basic education formula staff units shall not be less than the number
36 of basic education formula staff units received by the districts in the
37 school year prior to the consolidation; and

38 (b) For the fourth through eighth school years following
39 consolidation, the difference between the basic education formula staff

1 units received by the districts for the school year prior to
2 consolidation and the basic education formula staff units after
3 consolidation pursuant to subsection (2)(a) through (h) of this section
4 shall be reduced in increments of twenty percent per year.

15 (b) As used in this subsection, the column headings "BA+(N)" refer
16 to the number of credits earned since receiving the baccalaureate
17 degree.

18 (c) For credits earned after the baccalaureate degree but before
19 the masters degree, any credits in excess of forty-five credits may be
20 counted after the masters degree. Thus, as used in this subsection,
21 the column headings "MA+(N)" refer to the total of:

- 22 (i) Credits earned since receiving the masters degree; and
- 23 (ii) Any credits in excess of forty-five credits that were earned
24 after the baccalaureate degree but before the masters degree.

25 (5) For the purposes of this section:

- 26 (a) "BA" means a baccalaureate degree.
- 27 (b) "MA" means a masters degree.
- 28 (c) "PHD" means a doctorate degree.

29 (d) "Years of service" shall be calculated under the same rules
30 adopted by the superintendent of public instruction.

31 (e) "Credits" means college quarter hour credits and equivalent in-
32 service credits computed in accordance with RCW 28A.415.020 and
33 28A.415.023.

34 (6) No more than ninety college quarter-hour credits received by
35 any employee after the baccalaureate degree may be used to determine
36 compensation allocations under the state salary allocation schedule and
37 LEAP documents referenced in this act, or any replacement schedules and
38 documents, unless:

- 39 (a) The employee has a masters degree; or

1 (b) The credits were used in generating state salary allocations
2 before January 1, 1992.

3 (7) The certificated instructional staff base salary specified for

8 for the learning improvement day funds for school years 1999-00 and
9 2000-01, only if three days have been added to the base contract in
10 effect for the 1998-99 school year. If fewer than three days are
11 added, the additional learning improvement allocation shall be adjusted
12 accordingly. The additional days shall be for activities related to
13 improving student learning consistent with education reform
14 implementation. The length of a learning improvement day shall not be
15 less than the length of a full day under the base contract. The
16 superintendent of public instruction shall ensure that school districts

18 Allocations for transportation of students living within one radius
19 mile shall be based on the number of enrolled students in grades

13 The appropriations in this section are subject to the following
14 conditions and limitations:

15 (1) Funding for special education programs is provided on an excess
16 cost basis, pursuant to RCW 28A.150.390. School districts shall
17 ensure, to the greatest extent possible, that special education
18 students receive their appropriate share of the general apportionment
19 allocation accruing through sections 502 and 504 of this act. To the
20 extent a school district cannot provide an appropriate education for
21 special education students under chapter 28A.155 RCW through the
22 general apportionment allocation, it shall provide services through the
23 special education allocation funded in this section.

24 (2) Each general fund--state fiscal year appropriation includes
25 such funds as are necessary to complete the school year ending in the
26 fiscal year and for prior fiscal year adjustments.

27 ((+2)) (3) The superintendent of public instruction shall
28 distribute state funds to school districts based on two categories:
29 The optional birth through age two program for special education
30 eligible developmentally delayed infants and toddlers, and the
31 mandatory special education program for special education eligible
32 students ages three to twenty-one. A "special education eligible
33 student" means a student receiving specially designed instruction in
34 accordance with a properly formulated individualized education program.

35 ((+3)) (4) For the 1999-00 and 2000-01 school years, the
36 superintendent shall distribute state funds to each district based on
37 the sum of:

38 (a) A district's annual average headcount enrollment of
39 developmentally delayed infants and toddlers ages birth through two,

1 multiplied by the district's average basic education allocation per
2 full-time equivalent student, multiplied by 1.15; and

3 (b) A district's annual average full-time equivalent basic
4 education enrollment multiplied by the funded enrollment percent
5 determined pursuant to subsection ~~((4)(e))~~ (5)(c) of this section,
6 multiplied by the district's average basic education allocation per
7 full-time equivalent student multiplied by 0.9309.

8 ~~((4))~~ (5) The definitions in this subsection apply throughout
9 this section.

10 (a) "Average basic education allocation per full-time equivalent
11 student" for a district shall be based on the staffing ratios required
12 by RCW 28A.150.260 and shall not include enhancements, secondary
13 vocational education, or small schools.

14 (b) "Annual average full-time equivalent basic education
15 enrollment" means the resident enrollment including students enrolled
16 through choice (RCW 28A.225.225) and students from nonhigh districts
17 (RCW 28A.225.210) and excluding students residing in another district
18 enrolled as part of an interdistrict cooperative program (RCW
19 28A.225.250).

20 (c) "Enrollment percent" means the district's resident special
21 education annual average enrollment including those students counted
22 under the special education demonstration projects, excluding the birth
23 through age two enrollment, as a percent of the district's annual
24 average full-time equivalent basic education enrollment. For the 1999-
25 00 and the 2000-01 school years, each district's funded enrollment
26 percent shall be the lesser of the district's actual enrollment percent
27 for the school year for which the allocation is being determined or
28 12.7 percent.

29 ~~((5))~~ (6) At the request of any interdistrict cooperative of at
30 least 15 districts in which all excess cost services for special
31 education students of the districts are provided by the cooperative,
32 the maximum enrollment percent shall be 12.7, and shall be calculated
33 in the aggregate rather than individual district units. For purposes
34 of this subsection, the average basic education allocation per full-
35 time equivalent student shall be calculated in the aggregate rather
36 than individual district units.

37 ~~((6))~~ (7) A maximum of \$12,000,000 of the general fund--state
38 appropriation for fiscal year 2000 and a maximum of \$12,000,000 of the
39 general fund--state appropriation for fiscal year 2001 are provided as

1 safety net funding for districts with demonstrated needs for state
2 special education funding beyond the amounts provided in subsection
3 (~~((3))~~) (4) of this section. Safety net funding shall be awarded by
4 the state safety net oversight committee.

5 (a) The safety net oversight committee shall first consider the
6 needs of districts adversely affected by the 1995 change in the special
7 education funding formula. Awards shall be based on the amount
8 required to maintain the 1994-95 state special education excess cost
9 allocation to the school district in aggregate or on a dollar per
10 funded student basis.

11 (b) The committee shall then consider unusual needs of districts
12 due to a special education population which differs significantly from
13 the assumptions of the state funding formula. Awards shall be made to
14 districts that convincingly demonstrate need due to the concentration
15 and/or severity of disabilities in the district. Differences in
16 program costs attributable to district philosophy or service delivery
17 style are not a basis for safety net awards.

18 (c) The maximum allowable indirect cost for calculating safety net
19 eligibility may not exceed the federal restricted indirect cost rate
20 for the district plus one percent.

21 (d) Safety net awards shall be adjusted based on the percent of
22 potential medicaid eligible students billed as calculated by the
23 superintendent in accordance with Substitute Senate Bill No. 5626
24 (medicaid payments to schools).

25 (e) Safety net awards must be adjusted for any audit findings or
26 exceptions related to special education funding.

27 (f) The superintendent may expend up to \$100,000 per year of the
28 amounts provided in this subsection to provide staff assistance to the
29 committee in analyzing applications for safety net funds received by
30 the committee.

31 (~~((7))~~) (8) The superintendent of public instruction may adopt such
32 rules and procedures as are necessary to administer the special
33 education funding and safety net award process. Prior to revising any
34 standards, procedures, or rules, the superintendent shall consult with
35 the office of financial management and the fiscal committees of the
36 legislature.

37 (~~((8))~~) (9) The safety net oversight committee appointed by the
38 superintendent of public instruction shall consist of:

39 (a) Staff of the office of superintendent of public instruction;

1 (b) Staff of the office of the state auditor;
2 (c) Staff of the office of the financial management; and
3 (d) One or more representatives from school districts or
4 educational service districts knowledgeable of special education
5 programs and funding.

6 (~~(9)~~) ~~A maximum of~~) (10) To the extent necessary, \$5,500,000 of
7 the general fund--federal appropriation shall be expended for safety
8 net funding to meet the extraordinary needs of one or more individual
9 special education students. If safety net awards to meet the
10 extraordinary needs of one or more individual special education
11 students exceed \$5,500,000 of the general fund--federal appropriation,
12 the superintendent shall expend all available federal discretionary
13 funds necessary to meet this need. General fund--state funds shall not
14 be expended for this purpose.

15 (~~(10)~~) (11) A maximum of \$678,000 may be expended from the
16 general fund--state appropriations to fund 5.43 full-time equivalent
17 teachers and 2.1 full-time equivalent aides at children's orthopedic
18 hospital and medical center. This amount is in lieu of money provided
19 through the home and hospital allocation and the special education
20 program.

21 (~~(11)~~) (12) A maximum of \$1,000,000 of the general fund--federal
22 appropriation is provided for projects to provide special education
23 students with appropriate job and independent living skills, including
24 work experience where possible, to facilitate their successful
25 transition out of the public school system. The funds provided by this
26 subsection shall be from federal discretionary grants.

27 (~~(12)~~) (13) A school district may carry over from one year to the
28 next year up to 10 percent of general fund--state funds allocated under
29 this program; however, carry over funds shall be expended in the
30 special education program.

31 (~~(13)~~) (14) The superintendent shall maintain the percentage of
32 federal flow-through to school districts at 85 percent. In addition to
33 other purposes, school districts may use increased federal funds for
34 high-cost students, for purchasing regional special education services
35 from educational service districts, and for staff development
36 activities particularly relating to inclusion issues.

37 (~~(14)~~) (15) A maximum of \$1,200,000 of the general fund--federal
38 appropriation may be expended by the superintendent for projects
39 related to use of inclusion strategies by school districts for

1 provision of special education services. The superintendent shall
2 prepare an information database on laws, best practices, examples of
3 programs, and recommended resources. The information may be
4 disseminated in a variety of ways, including workshops and other staff
5 development activities.

9 than would otherwise occur, and (B) the prevention or mitigation of
10 unfair economic hardship; and
