Background:

In 1998, the Legislature created the Freight Mobility Strategic Investment Program. The purpose of the program is to construct high-priority freight transportation projects using the greatest amount of partnership (non-state) funding possible.

The program is governed by the Freight Mobility Strategic Investment Board (FMSIB). The FMSIB is comprised of freight mobility stakeholders, including the state, cities, counties, port districts, representatives of the trucking and railroad industry, barge and steamship operators, and a representative from the Governor's office.

The FMSIB was directed to employ an executive director and submit a status report and staffing plan to the Legislature prior to the 1999 legislative session. It was anticipated that the FMSIB would remain an autonomous board operating independently from the state Department of Transportation (DOT). Current law requires that the DOT, the Transportation Improvement Board (TIB) and the County Road Administration Board (CRAB) provide staff support for most of the FMSIB's functions.

The authorizing legislation does not permit board members to be reimbursed travel and other necessary expenses for attending board meetings. This was done with the expectation that each member of the board, or his/her representative agency, would pay for their travel expenses.

Summary of Bill:

Members of the FMSIB are eligible to receive travel reimbursement as allowed under the Office of Financial Management guidelines.

The FMSIB is no longer required to hire an executive director. If the FMSIB chooses not to hire an executive director, it may contract out with the private sector or rely on state transportation-related agencies to carry out the responsibilities of that position. The FMSIB may obtain additional staff support from the DOT, the TIB and the CRAB.
