

# HOUSE BILL REPORT

## HB 1880

---

---

**As Reported By House Committee On:**  
Health Care

**Title:** An act relating to providing for self-directed care of persons with disabilities.

**Brief Description:** Providing for self-directed care of persons with disabilities.

**Sponsors:** Representatives Cody, Schual-Berke, Kenney and Edmonds.

**Brief History:**

**Committee Activity:**

Health Care: 2/19/99, 3/2/99 [DPS].

**Brief Summary of Substitute Bill**

- Clarifies the ability of a person with a functional disability to employ a personal aide to assist in routine health related tasks that persons without a disability customarily performs in their own home.
- Directs the Department of Social and Health Services to establish a registry of personal aides, and requires personal aides to register.
- Personal aides are subject to background checks, and reports of abuse, neglect, abandonment, and exploitation of the clients they serve.

---

### HOUSE COMMITTEE ON HEALTH CARE

**Majority Report:** The substitute bill be substituted therefor and the substitute bill do pass. Signed by 11 members: Representatives Cody, Democratic Co-Chair; Parlette, Republican Co-Chair; Pflug, Republican Vice Chair; Alexander; Boldt; Campbell; Conway; Edmonds; Edwards; Mulliken and Ruderman.

**Staff:** John Welsh (786-7133).

**Background:**

Persons with functional disabilities encounter legal barriers to providing for their health care needs in their own home by securing the assistance of non-professional care providers. The health professional licensure acts have an unintended consequence of prohibiting non-professional providers, such as personal aides, from assisting persons with functional disabilities in routine health-related tasks that persons without disabilities personally and customarily perform for themselves.

---

### **Summary of Substitute Bill:**

There is a declaration of legislative intent to clarify the right of adults with functional disabilities to choose to self-direct their own health-related tasks in their own home through personal aides. It is in the public interest to preserve the autonomy and dignity of persons with functional disabilities by allowing them to care for themselves through personal aides in their own homes as a health care option.

An adult person with a function disability living at home may direct and supervise a paid personal aide in the performance of a health care task under specified guidelines. These guidelines include the following:

1. The health care tasks are those medical, nursing, or home health services, enabling the person to maintain independence, personal hygiene and safety at home, that a person without the disability would personally perform;
2. The health care provider incurs no additional liability when ordering a health care task which is to be done through self-directed care through a personal aide than what the patient would otherwise do personally;
3. The role of the personal aide is limited to performing physical health care tasks under the direction of the patient, but may also provide other home care services such as personal care or homemaker services;
4. The responsibility to initiate health care tasks and exercise judgment rests with the person self-directing those tasks, including the decision to employ or dismiss the personal aide.

A person who is paid to act as a personal aide, working privately or as an individual provider under contracts with the Department of Social & Health Services, is required to register with the department, and no person who is not registered may perform self-directed care tasks.

The department shall establish by rule a registry of personal aides to record findings of abuse, neglect, or the exploitation or abandonment of the persons self-directing

their care. The department shall provide for disclosure, disposition of findings, findings of fact, appeal rights, and fair hearing requirements.

The department is authorized to develop training requirements and background checks for individual providers and home health care agency providers who serve Medicaid clients. The department must deny payment to individual providers and home care providers who do not complete training requirements.

Clients with functional disabilities who self-direct their own care through personal aides are considered vulnerable adults protected from acts of abuse, neglect, exploitation or abandonment committed by personal aides.

A personal aide in the performance of health care tasks pursuant to this act is exempt from any legal requirement to qualify and be credentialed by the Department of Health as a health care provider under Title 18 RCW.

**Substitute Bill Compared to Original Bill:** The department is authorized to develop training requirements for individual providers of Medicaid clients, as well as training requirements and background checks, for personal aides who provide Medicaid personal care. Persons who self-direct their care are considered vulnerable adults for reporting abuse, neglect, abandonment and exploitation. The authority of the ombudsman to investigate is deleted. The department must deny payment to individual providers convicted of an offense of abuse, neglect, exploitation or abandonment.

---

**Appropriation:** None.

**Fiscal Note:** Requested on February 10, 1999.

**Effective Date of Substitute Bill:** Ninety days after adjournment of session in which bill is passed.

**Testimony For:** (original bill) Persons with disabilities have a right to self-direct their own care the same as a person without a disability. The law should be clarified to prevent persons with disabilities to employ personal aides to assist them in self-directing their own care. This preserves the autonomy and dignity of persons with disabilities to care for themselves in their own home.

**Testimony Against:** None.

**Testified:** (support) Skip Dreps, Andy Warberg, and Chauncy White, Northwest Chapter of Paralyzed Veterans of America; Irene Robbins, Senior Lobby; Dennis

Mahar, Washington Association of AAA; Theresa Baird, Multiple Sclerosis Society; Julie Wright, Consumer, Muscular Dystrophy; Toby Olson, Governor's Committee on Disabilities and Employment; and Joe Whaley, self.

(support with amendment) Terry Kohl, Washington Protection and Advocacy System; and Kathy Leitch, Department of Social and Health Services.
