Background:

State law authorizes the director of Agriculture to establish a fee-for-service program to provide, upon request, services to growers and other interested parties for special inspections and certifications, identifications, diagnostic services, and activities needed to facilitate the movement or sale of plant products or bees and bee products. Monies

collected from providing these services are deposited in the Plant Pest Account in the Agricultural Local Fund. The account is a revolving fund for providing these services.

Other laws require the director of Agriculture to establish standards and grades for apples, apricots, Italian prunes, peaches, sweet cherries, pears, potatoes and asparagus and allow the director to establish them for other fruits and vegetables. For the purposes of these laws, the state is divided into not less than three fruit and vegetable inspection districts. The fees collected for these services are deposited in a district fund, which is used as a revolving fund to carry out services within the district. Some of the monies in the district fund are also transferred to the state Fruit and Vegetable Inspection Trust Account.

In 1997, legislation authorized a transfer of \$200,000 in District No. 2 funds to the Plant Pest Account for activities related to apple maggot control. Funds from this transfer that are unexpended by June 30, 1999, are to be returned to the district fund. By rule, District No. 2 is made up of Kittitas, Klickitat, Skamania, Yakima, and a portion (the Prosser, Kiona, and Benton City areas) of Benton County.

Summary of Bill:

The date by which monies transferred from the district fund of District No. 2 must be expended from the Plant Pest Account for apple maggot control activities or be returned to the district fund is extended to June 30, 2001 (from June 30, 1999).
