

1224-S

Sponsor(s): House Committee on Commerce & Labor (originally sponsored by Representatives Hurst, Conway, Campbell, Cairnes, Kessler, Clements, McIntire and Ogden)

Brief Title: Requiring a permanent anchor for worker fall protection.

HB 1224-S - DIGEST

(DIGEST AS ENACTED)

Declares that, by October 1, 1999, the building code council shall prepare a report to the legislature documenting the need, including safety benefits, for requiring the installation of permanent anchors for fall protection on all new commercial and residential construction and when a roof is replaced on existing commercial and residential structures. The report shall contain recommendations on the best design and placement of such anchors.
