Brief Title: Modifying provisions related to long-term care of adults.

**HB 1546-S2 - DIGEST**

(DIGEST AS ENACTED)

Revises provisions related to long-term care of adults.

Finds that the quality of long-term care services provided to, and protection of, Washington's low-income elderly and disabled residents is of great importance to the state. The legislature further finds that revised in-home care policies are needed to more effectively address concerns about the quality of these services.

Finds that consumers of in-home care services frequently are in contact with multiple health and long-term care providers in the public and private sector. The legislature further finds that better coordination between these health and long-term care providers, and case managers, can increase the consumer's understanding of their plan of care, maximize the health benefits of coordinated care, and facilitate cost efficiencies across health and long-term care systems.

Provides that the act shall be null and void if appropriations are not approved.
