Brief Title: Requiring electric utilities to disclose to customers the cost of salmon restoration and recovery efforts.

HB 1720 - DIGEST

Declares that utilities are required to provide to the consumers of electricity an adequate disclosure of costs attributable to salmon restoration and recovery and other environmental costs. Utilities shall disclose these costs to the customer on a monthly basis, and include the following information: (1) The amount, to the nearest whole dollar, of the customer's monthly utility bill that is attributable to salmon restoration and recovery and other environmental costs; and

(2) an explanation in the customer's utility bill, on at least an annual basis, of the method used to calculate the costs attributable to salmon restoration and recovery and other environmental costs.
