Brief Description: Requiring additional crime prevention training for employees of evening retail establishments.

**HB 1851 - DIGEST**

Requires all employers operating evening retail establishments to provide to their employees crime prevention training. Such crime prevention training shall be a part of the accident prevention program requirements imposed under the Washington industrial safety and health act of 1973, chapter 49.17 RCW, and shall include, but not be limited to: (1) Providing a training manual developed and distributed by the department to employers or a manual that has been certified by the department under this section containing security policies, safety and security procedures, and personal safety and crime avoidance techniques; and (2) attendance at a training seminar or training video presentation developed and distributed, or certified, by the department under this section.
