Brief Description: Requiring notification when microbial contamination in untreated water segments exceeds allowable standards and poses a public health risk.

**HB 2462 - DIGEST**

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to require water purveyors, public utility districts, counties, cities and towns, and entities issued a waste discharge permit under chapter 90.48 RCW, that may be involved in the monitoring of untreated surface water for various purposes, to notify residents adjacent to water segments when: (1) Monitoring of those segments shows them to exceed the state's standards for microbial contamination; and

(2) local health officers have determined that such contamination presents a public health risk.
